

Aliens in full

Moscow — Further details emerged yesterday of the reported visitation of alien beings to the Soviet city of Voronezh, writes **Rupert Cornwell**.

The newspaper *Sovyetsyaka Kultura* quoted Voronezh residents as saying that between 23-29 September they had repeatedly seen UFOs — including a three-eyed humanoid, a robot and a raygun which makes mere earthlings disappear. The newspaper's local correspondent admitted that "it is hard to believe what happened, but there's no doubt that something did".
