

Do **YOU** have:

**A mystery illness?**

I THOUGHT IT WAS  
ATHLETE'S FOOT!

**Complete  
memory loss?**

WHAT WAS YOUR NAME AGAIN?

**Recurring  
dreams?**

ONLY ABOUT KIM BASINGER!

# **YOU MAY HAVE BEEN ABDUCTED BY SPACE ALIENS ... & don't know it!**

By IRWIN FISHER

Space aliens often erase the memories of people they abduct. But you can still determine if you've been taken aboard a starship or examined by extraterrestrials with tips from two of the world's leading experts.

All you have to do is check for the tell-tale signs of alien abduction, including memory loss, sudden illness, unusual dreams or strange marks on your body.

Those symptoms almost certainly indicate that you've been abducted by space aliens.

"Many people have been abducted by space aliens but can't remember anything about their abductions," declared Brad Steiger, author of the best-selling book *The UFO Abductors*.

"UFO abductees often find they have black spots in their memories.

"In some cases it is simply a tantalizing sensation that there is something they are trying to remember but can't recall."

Hayden Hewes, executive director of the International UFO Bureau, said: "Abductees frequently have recurring dreams or daytime visions about alien beings, spacecraft or extraterrestrial realms.

"They often discover

unexplained wounds or scars. Or they mysteriously begin to suffer from physical problems."

According to Steiger and Hewes, the warning signs of alien abduction are:

- The mysterious onset of illness, including insomnia, loss of appetite, nausea, headaches, a rash or fatigue.

- The nagging sensation of having "lost" a period of time out of your life.

- Complete memory loss.

- The mysterious appearance of scars, bruises, puncture marks, burns or missing hair suggestive of medical examination by aliens.

- Recurring dreams. Some common images include extraterrestrial worlds or landscapes and crystal cities.

- Recurring daytime images. Common ones are space aliens, UFOs or extraterrestrial scenes.

If you have experienced one or more of these symptoms, Steiger and Hewes advise you to look in your phone book and contact the UFO organization nearest you.

They should be able to put you in touch with someone who can hypnotize and regress you to the time of the abduction so you can remember it completely, the experts said.

Here's  
how  
you  
can  
tell:

**UFO EXPERT** says many people have been kidnapped by extraterrestrial aliens.
