

### **Hungarian Sightings**

Meteorologists and military pilots in the western Hungarian town of Papa reported seeing four large, bright orange unidentified flying objects after midnight on Nov. 25. Government meteorologist Gyula Bazso said the objects were spherical and 50-100 yards wide. He said one flew at the speed of 2,626 mph. Bazso contacted authorities at the local military air base who sent up an experienced pilot to investigate. He located the four objects at a height of around 4 miles. All the UFOs were said to have disappeared suddenly after 2 a.m.
