

Numerous UFOs cited in Belgium

BRUSSELS, Belgium — The air force and police are investigating numerous UFO sightings near the border with the Netherlands and West Germany. Since Nov. 29, dozens of people and police officials in the northeastern Liege province said they've seen luminous objects in the sky, with some of them describing a flying platform scanning the surface with three huge searchlights, while others talk of dancing lights. During the same period, air traffic controllers "found radar blips on the screens that could not be immediately explained," said Defense Ministry spokesman Col. Michel Mandel.
