## UFO Visit

WE are cheered by the news that, three days before Christmas, Peter Halliday and his wife saw what they believed to have been a mysterious flying object zipping over High Wycombe.

Mr Halliday's sighting is not to be dismissed lightly since he is undoubtedly an aviation enthusiast of considerable experience and knowledge; indeed, a lecturer in such matters.

Some cynics will dismiss the UFO as merely Santa's state-of-the-art mode of transport. Others will truly believe it was a craft from outer space.

Why then was it seen travelling so quickly across the town? Presumably because its extra-terrestrial occupants, like many earthlings, couldn't find a parking space.
