Mary Rodwell

Mary Rodwell

Mary, born in Litchfield, is the founder of ACERN - the Australian Close Encounter Resource Network - an organisation specialising in helping alien abduction victims deal with their traumas.

For more than 15 years, she has studied the UFO and abduction phenomena and has travelled the world giving lectures on the highly controversial subject.

Hundreds of people from around the globe - who claim to be alien abductees - have contacted Mary and she says her hypnosis sessions have allowed them to discover the truth about their experiences.

A grey alien

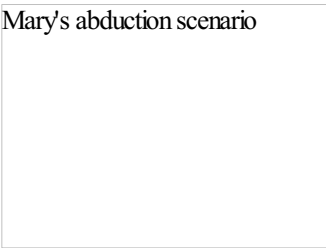

A grey alien

Her book 'Awakening' forms part of her hypothesis that the human race is the product of alien genetic engineering and that our DNA has been tampered with in attempts to accelerate the evolution of mankind.

Mary's most recent work suggests that alien intervention in the genetic makeup of children has greatly advanced their social and intellectual development.

Mary's abduction scenario

Mary's abduction scenario

She has dubbed them 'Star Children' and claims that evidence of their existence can be found around the world in the form of child prodigies - children with special powers and abilities way beyond conventional understanding.

**Furthermore, Mary says she has proof of her claims.**

In this exclusive interview Mary Rodwell elaborates on her theories and discusses the UFO phenomenon at large.

Aliens entering a room

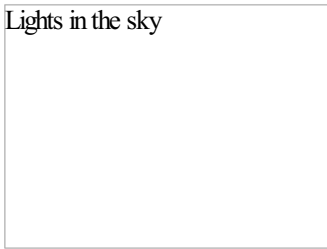

Aliens entering a room

**Click the link at the top of this page to listen to Mary Rodwell talking to BBC WM.**

In highlights, Mary discusses:

- Her previous career as a nurse and midwife and how some of the extraordinary stories she was told by patients forced her to seriously examine the alien abduction phenomenon
- Alien abduction - the procedure, the intergenerational nature of the abduction process and various case studies involving families from around the world
- Hard evidence on the existence of UFOs including implants recovered from alien abductees
- How world governments have the ability to produce free energy thanks to reverse engineering from alien technology - and why they won't use it
- Her theories on genetics and how aliens have manipulated and altered human DNA
- The Star Children - including examples of kids the world over with exceptional abilities which Mary says are the direct result of alien genetic interference
