Although we may see a story about UFO-like objects appearing on the TV and the Internet when developing the photos, it seems that we found out that a female object was reflected in a picture taken by a woman.

It is unknown whether the camera is out of order or whether it is a psychic phenomenon or really a fairy, but the person himself photographed seems to believe in the presence of the fairy.

Pictures are as follows.

This is a picture of a fairy object.

You can see things that seem to be hands and feet besides feathers when you expand.

This picture was taken by Mr. Phyllis · Bacon (55 years old) who lives in the city called New Addington in the suburbs of London, England, and it is a photograph of the garden when talking with a relative in the kitchen. Mr. Phyllis does not see anything and just pushed the shutter, he seems that he did not actually see something like a fairy.

This person is Mr. Phyllis

Mr. Phyllis seems to have investigated why such stuff appears in the past few months, but he seems to have not reached the satisfying answer even now. In addition, it seems that they asked for information by publishing images on the Internet, but it was said that we could not obtain powerful information. Mr. Phyllis commented, "I think that if you question a specialist, you will give a technical explanation, I think that it really is a fairy," he seems to believe in the existence of Sidhe.
