I am not American New York or Washington, but somehow my huge UFO came over South Africa. More than 1 million aliens in it will become refugees, eventually the cohabitation area "District 9" will become slum, ultra-state institution MNU will eventually make them move to concentration camps However, it will become a trigger for a major incident to start moving when it was stopped for 28 years .... this documentary style SF movie "District 9" is.

Actually this movie entered the store "HALO" making a movie The staff and director engaged in the staff and the director who was engaged in the film, has become a movie completed with the obsession and momentum of "It will accumulate as it is, as it is" as it is, there are once original films and others, but all of them Mixed and brushed up, finished in a movie of quality as never before. As a result, the original script, the cast is a no-name, the director is a rookie, the stage is a distant South Africa, except for the huge number of negative factors, released on August 14, 2009, the weekend saw income of 37 million dollars (about 3.2 billion The first boxing office ranking No. 1 in the US box office ranking first, and the subsequent national income surplus exceeded 100 million dollars (about 8,840 million yen), one of the most promising candidates for the 82nd Academy Award for this year It has already been elected as a nomination candidate for visual effect award.

So this movie finally decided the road show in April 2010 under the title "9th district" even in Japan. Trailers and main video images are from the following.
