

# There it was—gone!

Mrs. A. METCALFE of Mount-road, Chessington, Surrey,  
writes:

I WAS very surprised to read the letter from Mrs. Shella Hadley, of Hampton, Middlesex. I, too, saw the mysterious object she wrote about.

About 5 a.m. one morning recently, not feeling well. I was up and looked out of the window.

I saw this object, like a golden tennis ball, flash through the sky over the rooftops.

I haven't told anybody about this, as I thought at the time I was having hallucinations.

☆ You must be highly relieved that someone else claimed to have seen the darned thing, Mrs. M.!
