

SAUCERS ARE 'KEEPING AN EYE ON US'

TWO members of the Aetherius Society, Miss Liesel Kittner and Mr. Niel Goldie, whose studies of metaphysics include flying saucers, gave Hanger Hill Young Conservatives something to think about at the Fox and Goose Hotel, Hanger-lane, Ealing, last week.

Miss Kittner assured members that the beings operating flying saucers are more connected with this planet than we realized.

Mr. Goldie said flying saucers were spacecraft, and the Aetherius Society believed they came from other planets in the solar system—Mars and Venus.

They had been tracked on radar, travelling at 18,000 miles an hour. Their history went back thousands of years.

Spiritual

Their mission to this earth was spiritual, the Aetherius Society believed. Planets in the solar system were inhabited by superior beings, who thought man was not capable of looking after himself.

Mr. Goldie said the society was a world-wide organization, with headquarters in London and Los Angeles.

Its aims were to spread the teachings of the Cosmic Master, to prepare the platform for the coming of a new Master to this earth, and to administer spiritual healing to the needy and suffering.

Both speakers were inundated with questions.
