

Saucers petition

THE PHENOMENON of Un-identified Flying Objects has haunted our skies since 1947. I am now preparing a petition to the U N Secretary-General to ask for:

Official recognition of the UFO question, as a serious matter of global importance; the establishment of a global UFO observers' network; the creation of a special UFO Research Centre, run by UNESCO, with an international panel of scientists to study and assess the reports.

I should be pleased to hear from any interested readers.

ANTONI W. SZACHNOWSKI,
Chairman,

Anglo-Polish UFO Research Club,
