

SOMETHING ODD IN THE SKY

THERE was something curious in the sky over Kingsbury on Friday night. Miss Susan Morgan, of 10, Greenhill, Wembley Park, had just been to collect her brother Bryn and two other choirboys, Peter Ashley and Charles Lamb, from St. Andrew's Church, Kingsbury.

It was about 9.05 p.m., in Church Lane, Kingsbury: "The boys shouted out: 'There's a shooting star'," said Miss Morgan on Tuesday. "I got out of the car to look. A shooting star would be gone in a second but this 'thing' was still there.

"It moved over the top of us and over St. Andrews Church, more like a flame than a light. Then it moved away towards Hendon, over the Welsh Harp.

"It was fairly high up but not as high as an aeroplane."
