

# SUDDENLY.. THE NIGHT SKY IS FULL OF UFOs

**I**T was the Night of the UFOs. More than 300 people stayed up looking for them. And the reports came in. From Essex: A large, purple, cigar-shaped object surrounded by rotating discs.

From Didcot, Berks: A bright star-like object which did a clockwise circle before nipping off in an easterly direction.

## Sinister

From Halifax: Twin lights of a "sinister" orange.

From Guildford, Surrey: The sighting of an unusual pencil line across the Moon.

All clearly UFOs . . .  
Unidentified Flying  
Objects.

And a bumper Saturday night's work for the British UFO Research Association and the International Sky Scouts Association whose members co-operated in a twenty-four hour "sky watch."

**THERE WAS** a report of something odd over Paddington. But the sighting was not confirmed.
