

POLICE 'BOOK'

FLYING

SAUCER

TWO POLICEMEN who say they have seen a flying saucer were questioned by their divisional chief yesterday.

Chief Superintendent Tom Andrews accepted their report and allowed it to be made public.

The sighting was at Hindley, near Wigan, Lancs., last Thursday.

High, fast

Thirty-year-old Constable Lionel Haw's notebook reads: "Saw object in sky, high altitude, travelling east, fast speed, round-shaped. Not a plane or comet. Also seen by P-c Parsonage."

Constable Steve Parsonage, aged 20, said yesterday: "I could see it very clearly."

An inspector commented: "Policemen are trained observers. They would not say they had seen it if it wasn't true."
