

Saucery

I AM aged 34. My eyesight and hearing are perfect and I am sound in mind and body. At precisely 11.16 p.m. on Monday, a light similar to that from a

star crossed a wide expanse of sky above Dartford from north west to south east, emitting no sound.

This is the fifth sighting in ten months and, while very sceptical about the existence of UFO's, I am bound to ask if they exist. Or is there a simpler official explanation?—J. M. BRAYSON, *Beach Drive, Bean, Kent.*
