

Couple in bed 'watched UFOs land'

THREE bright, moving discs were seen "landing" in Waltham Forest by a Leytonstone couple as they lay in bed late on Sunday evening.

The man, who wishes to remain anonymous in case neighbours laugh at him, leapt from his bed as the UFOs appeared to land in the Chingford area, but saw nothing when he looked out from his tower-block home again.

"I was frozen for a while" he said. "But it was fantastic. They flew over very silently and then dropped down. My wife saw them, too, so I wasn't dreaming.

"They were definitely not aeroplanes or anything like that, but they were very eerie. I didn't sleep a wink that night, thinking about them," he said.
