

# 'Spaceship' scares wife

DEFENCE experts were asked yesterday to investigate a housewife's close encounter with a UFO which terrified her.

Mrs Patricia Stark, 25, says she saw a huge spaceship fly over her house as she opened her curtains after midnight.

She said at her home in Penzoy Avenue, Bridgwater, Somerset, yesterday: "First one part of the object would glow and then grow

dark, and then another part.

"It was silent with no bright lights and no smoke, but it was absolutely huge—about the size of three large aircraft.

"I was petrified."

Her husband Brian, 28, said: "We have reported it to the Royal Naval Air Station at Yeovilton, Bristol Airport and the Ministry of Defence."
