

ANOTHER UFO!

by Royal Appointment

A mystery craft over Windsor

AN oval-shaped UFO has been spotted over Windsor Castle.

The mystery craft flew close to the battlements in broad daylight.

People watched in disbelief as the red, glowing machine—the size of a Mini—moved slowly across the sky.

The revelation comes after the pilot of an aircraft carrying Prince Charles home from America reported seeing a similar red, glowing object near his flightpath.

So far no-one has been able to

explain why the Royals have been singled out for close encounters of the weird kind.

MIRROR **Safe** 9/3/86

Office manageress Tracey Wogan, 23, who saw the Windsor UFO, said last week: "I just happened to glance out of the window and couldn't believe what I saw."

Housewife Sheila Goulden, 43, of nearby East Crescent, was startled by the light in the sky and her son Tony, a 17-year-old catering student, said: "There was a bright yellow or white light in the centre, with a reddish colour outside."

A police spokesman said: "We checked with air traffic control at Heathrow and the weather centre at Bracknell but it was nothing to do with either of them."

UFO expert Tim Good said: "It is quite conceivable beings from outer space would be aware of what Windsor Castle is and who stays there."

In loo of cash

A WIDOW was barred yesterday from having her estranged husband's ashes—after she vowed to flush them down the loo.

Christina Torres made her threat after learning he had cut her from his will.

New York psychiatrist Dr. Edmundo Torres shot himself and blamed Christina's constant alimony demands.

RIFLE TRAGEDY

AN inquiry was under way yesterday after an Army officer accidentally shot dead weapons expert Colour Sgt. David Moore, 33, on a rifle range at Warminster, Wiltshire.

EXCLUSIVE Pilot shocked by close encounter

CHARLES IN UFO RIDDLE

Prince Charles is said to have been shocked by a close encounter with a glowing object in the sky last week.

Close encounter—reported last week

BACK SUPPORT

The relief you've been waiting for

WRONG
a sagging bed
or a hard bed
can aggravate
back pain.

Years of experience

tell us that standard beds may not be right for every human body. If they provide excellent support for someone of heavy build they're most unlikely to suit anyone lighter. And vice versa. Either way, at least one partner may well experience aches and pains.

What's the answer?

A bed from the Orthopaedic Bedding Advisory Service. A double bed with two entirely different types of springing to suit the needs of each partner exactly; to ease them gently into the right positions to keep the spine relaxed and flexible; to help lift the pressure off bones, muscles, tendons, nerve endings and joints.

Who are OBAS?

We are the Orthopaedic Bedding Advisory Service. Our surgical orthopaedic technician and our professionally qualified consultants have been responsible for the design of thousands of OBAS (single and double) beds to specifications dictated by weight, shape and medical history of each of our customers, including doctors' diagnosis, where known.

THERE'S no holding John Cleese. The ace funnyman just can't keep a straight face—even for a cuddle with Ever Decreasing Circles star Penelope Wilton, who appears in his new film Clockwise, out this week.
