Cathedral zappers!

AN ALIEN spaceship "zapped" York Minster — that's the amazing claim of two drivers who say they saw a glowing zeppelin-shaped UFO swoop over the cathedral on the night of the blaze.

Churchmen yesterday laughed

off the theory as out of this world and local RAF bases reported no UFO sightings.

But the drivers, Bill Whitehead, of Haxby, and Eddie Acaster, of Huntington, are now hoping other witnesses will come forward.
