

# Huge Glowing UFO Hovers Over High Tension Tower and Follows Police Spotlight

A brightly glowing UFO that showed a strange fascination for a high tension tower frightened a policeman when it suddenly became attracted to his squad car spotlight.

The UFO was one of two that swept in off Lake Erie and cavorted over the Madison, Ohio, area for 90 minutes early on the morning of November 4.

"It was an eerie feeling," said Patrolman Lester Nagle, 24, who turned his spotlight on one of the UFOs to get a better look at it. "It was as though someone or something was watching us, checking us out."

For nearly an hour and a half Nagle and Patrolman Zachary Space, 26, watched the UFO sweep in time after time to hover over a 125-foot-tall power line tower 6 miles northeast of Madison.

"The first time I cut the spotlight on, the object moved away," said Nagle.

"Then I flicked it on and off a few more times — and the glowing object actually started to move toward the spotlight, as if it were attracted to it.

"It was astounding! It seemed to be intrigued by the light. I didn't know what to do — so I turned the light off real quick!"

The two UFOs, glowing red and green, had flown in over Lake Erie about 3:45 a.m., Patrolman Space told *The ENQUIRER*.

"It was incredible," he said. "They were in formation and then they broke off. One hovered over Madison and the other headed northeast.

"The one near the tower leveled off and slowly approached as though it was maneuvering carefully to get as close to the tower as possible.

"When it was directly over the tower, the reddish-green lights faded and the object began to glow pure white, so bright I couldn't see if it was actually touching the tower.

"I was about half a mile away and I couldn't estimate how large it was. When I held up my hand at arm's length to judge its size, it was larger than my hand. It was huge.

"Just as the white light reached its peak, the object streaked off across the sky so fast you couldn't see it move. Then it approached again, glowing red and green.

"I didn't know what to make of it. I spent 5 years in the Air Force as a mechanic and I've never seen a plane that can maneuver like that.

"It made about 20 passes at the tower, each time approaching the same way and then zipping off into the darkness."

Nagle, a 6-year veteran Air National Guard crew chief, decided to return to Madison to investigate the other UFO. "As I left the area, the object moved along above my car for a while and for some mysterious reason my radio wouldn't work."

Walt Rogers, an auto wrecker, had

the same experience when he met Nagle on the highway not far away.

"My two-way radio wouldn't work either," Rogers said. "Whatever that thing was, it seemed to be attracted to lights and power."

Nagle said he had a camera in his squad car — "but I just didn't think about taking a picture.

"I was just too spellbound by the sight of the object."

The other UFO hovered over Madison the entire time.

"We received at least a dozen calls on it," said Police Dispatcher Gerry Bowers. "I could see it from my window and I went outside once, but I got scared and didn't go out again."

Both objects vanished after about an hour and a half, Patrolman Space said.

"I had a strange feeling that as we were watching the objects we ourselves were being watched — the way we would watch a colony of ants."
