

# 'PHONE BUG' ON UFO COP

A VILLAGE bobby who has logged 60 UFO sightings last night claimed that his home phone is bugged and letters are intercepted.

"I don't know by whom, but I wouldn't be surprised if it was a Government agency," said Sergeant Tony Dodd. "I only wish they'd make an official approach because if there is anything top secret I'd be happy to keep quiet."

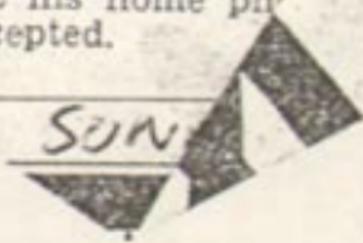

"Who they belong to is anyone's guess, but I think the Government could be going to any lengths to hush it up."

Tony, stationed at Threshfield, near Skipton, revealed in the Sunday People last month how he had seen the UFOs in the area dubbed the North Yorkshire Triangle.

The 49-year-old sergeant said. "I think my phone has been tapped for quite a while."

"Any letters relating to my UFO inquiries arrive opened or resealed. Whoever is doing it must know that UFOs exist."

Tony added: "I only deal in facts"
