Author. Born March 26, 1909, in Washington, D.C., died 1994 in Dunedin, Florida. A child prodigy, Carr was published in national magazines at the age of 15 and published his first novel, *The Rampant Age* (1928), at 17. He only authored two more novels, *The Bells of Saint Ivan's* (1944), and *The Room Beyond*. Science fiction works, *Beyond Infinity* (1951), a collection of stories, and *Invaders* (1954), were published later. Carr was a prominent proponent of Unidentified Flying Objects and is alleged to have perpetrated major hoaxes, including the notion that alien bodies were recovered from a UFO crash and autopsied by the U.S. government.
