

Annex Disc 7 : CEIII Humanoids (An Audio Retrospective)

34 Tracks

Total Running Time: 13:05:56

SYNOPSIS

Although accounts of humanoids piloting flying saucers go back many decades, this scenario was not initially publicized widely and soon forgotten by the general public. In 1952 radio newsman Frank Edwards startled the listeners with an interview with William Squyres, who observed a UFO with occupants over Pittsburg, Kansas in 1952. A little over a decade later the UFO occupant scenario began evolving to cover alien abductions and very strange creatures. This compilation deals with humanoid encounters that did not result in known alien abductions which are available on an earlier compilation CE IV
