Sounded like it might be pretty good until you threw the bible into it. More preaching, eh? No thanks.

"Institute on the Constitution (IOTC) is an educational effort on the part of the Law Office of Peroutka and Peroutka of Pasadena, Maryland. Our educational program is intended to reconnect Americans to the history of the American Republic and to their heritage of freedom under law."

<http://www.iotconline.com/>

IOTC offers a 12-week course on the Biblical Foundations of the Constitution. There are IOTC classes being held in several locations throughout Maryland as well as in other states. IOTC has been around for a few years, and classes have taken place throughout most states in

the country! If you decide to take the course at the IOTC in Maryland, they are asking \$25 to cover the cost of the material. Otherwise, there is no other cost. For other locations, please contact the IOTC to find out what, if any, cost will be required. You can take the course as many times as you like and not have to pay another dime. Attend as many of the class sessions as you like.

Click on the link below to find out if a class is starting in your area.

If there isn't, there is also material available for hosting a class.
