Agents of Light Newsletter
January/February 2011

Welcome to the Agents of Light newsletter. The purpose of our monthly newsletter is to establish contact and support for Lightworkers and their families. We provide support for their spiritual ascension, and guidance on how to access Light energy for themselves, Mother Earth and all other life on this planet.

There are hundreds of practical uses for Light energy, and it can serve us and our children in any manner we can conceive, while also helping raise the Earth's vibration. Our goal is to help create a critical mass of higher frequency energy that will raise the planet's vibration and lead us all into the N-w Age.

Besides providing instruction on how to access Light energy and how the ascension process works, we also help people remove obstacles to their spiritual growth and help them develop a working relationship with their etheric teachers.

In this month's issue, the etheric teachers share a few thoughts about loving one another, and how it should come naturally rather than be something we need to work at.

Next, we discuss what you can do to help the planet as the mood around the planet continues to degenerate as it did in the U.S. over the past few years. But rather than allow this declining mood to go unchecked, we call all send Light energy throughout the planet. The etheric teachers are increasing their outreach to those who are on a s-iritual path and seeking ascension. This outreach has included new tools for enhancing our sp-iritual growth as well as removing obstacles that hamper our progress. As part of this effort, they are revealing new and useful information as part of our "How to Facilitate Your Ascension" class on March 26th.

We also want to encourage those interested, to participate in the March Lightwork Class on March 12th and 19th. Working with the Light is an excellent way that we can expedite our ascension, and it also helps us draw closer to out etheric teachers.

As 2011 heats up we will continue to help support Lightworkers and their families who are interested in working with the Light, as well as those seeking ascension. We encourage readers to take advantage of the various activations, publications, readings and training that we make available for those pursuing their spi-ritual development.

In love and Light,
Bryan J-mes

Etheric Teachers Speak on Loving One Another

We want everyone to know that they should love one another. This is not something that is difficult to do. You can do this if you try. This is not something that we want you to work at. This is something that should come naturally.

We want you to know that this is something that you must learn to do. You should love one another in a way that is useful to you, and you should love one another in a way that is useful to others, and you should love one another in a way that is useful to us.

A Lightwork Meditation For Mother Earth

As we begin 2011, the decline of the mood of citizens around the planet is escalating at a rapid pace, and threatens to spiral out of control. As the Galactic Federation has been reporting over the past few years, the people are getting more and more disenchanted with their g-vernments. And now over the past few months, that discontent has been manifesting into r-volution at a rapid pace.

While some may see this as a positive outcome, it is not entirely certain just how this societal trend will play out. While it could lead to progressive changes in some countries, it could also easily result in very negative outcomes and a harsh backlash against the people. This could include loss of hard fought freedoms, armed conflict and marshal law. It could also spill over into w-r between nations.

So what's important for Lightworkers to do now is to send Light every day to go-ernment leaders and concerned citizens throughout the country, so we can try and diffuse these energies before they become problematic. It's not too late to hold these energies in check and turn the tide to bringing peace and equity for all to each nation. To help with that effort, we recommend our free article "A Light Meditation for Mother Earth" which you can find on our website.

Federation eBook - The Indigo Chronicles

The Indigo Chronicles is a story of how the Galactic Federation works with everyone who is of the Light and seeks to grow spiritually in a way that helps them and supports the planet. This is a story of how you can work with the Federation in a way that will both excite you and amaze you, as you read through the many examples of spiritual readings that were given to two young children.

This 163 page book explains how the Federation has been working with various people around the world to support their spir-tual growth. It contains many thrilling stories full of adventure and excitement, that the Galactic Federation used as part of their their special experiential training method. They use this method for those who are aspiring to greater heights.

These adventure stories are part reality, part metaphorical, but all based on actual events. While these were given to specific individuals for their spiri-ual growth, each story provides lessons that can benefit all readers.

These adventure stories were given to two children (Kevin and Katherine James) so they could share them with those who were receiving special activations. This was done so that others would know how the Federation supports us.

Special Products and Services for Spirit-al Growth

Activations and H-alings for Ascension

'Bad Seed' Removal - This ensures that our present i-carnation will never be lost to the Dark side. The Bad Seed works by clouding the s-ul's judgment when it has 'spi ritual' decisions to make. The seed causes a virus that spreads to the subconscious, and then to every level of consciousness. It is activated automatically when the level of darkness surpasses the level of Light (51%). Once it is activated, it cannot be stopped by any means.

Chakra Expansion/Frequency Acceleration - Activates at least 8 million chakras, allowing us greater access to higher energies, over 600,000 dimensions previously unknown to us, and raising our frequency for ascension to a minimum of 1,000.

Comfort Zone Program Removal - Removing this programming will expand your 'zone' to 100%, and free you up to better pursue your spiritua- mission. The program sends us "danger" impulses whenever we venture into any activity that would increase our vibration, reveal truth or prepare so-ls for ascension. We were not meant to have these restrictions.

Past Life Intervention - Now available for the first time due to recent advances in Lightwork technology. We can now resolve and re-write negative past life experiences to remove nagging issues in our current life, involving our behavior, finances, health, relationships and self-esteem. Rather than just help us "process" whatever horror occurred to us, we completely remove it and rework the energies so it never happened.

Total Consciousness Hea-ing - He-ling our total consciousness will remove all past life negative energies that manifested from fear, anger and doubt experienced during these lifetimes. Throughout our many lifetimes, our subconscious mind stores up every negative thought word and deed that we experience. These are damaging to all levels of our consciousness, and become blocks that get in the way of our sp-ritual growth.

Past Life and Spir-tual Readings

Past Life Readings - Learn more about who you truly are and have been over many lives. Receive information that your etheric teachers feel is relevant to your current life situation.

S-iritual Readings - Receive thorough responses in writing generated from your etheric teachers to help guide your life. For your growth in your relationships, career, health, spi-ritual progress, prosperity, etc.

D-vine Template Upgrades

An excellent way to enhance positive energies in our aura and attract even more prosperity in our lives is through use of the seven Di-vine Templates. By utilizing these templates on a daily basis, we can improve the abundance in our lives. These templates can affect our prosperity as follows:

#1 Manifestation Magnifier - This magnifies our intention, allowing us to create what we desire in our lives.

#2 Suit of Translucent clothes- Will allow us to better align with and manifest our H-ly I AM presence, which will help us focus on positive intentions and results.

#3 Gratitude Magnifier- Placed in our crown chakra, this magnifies feelings and expressions of joy and gratitude, and then attracts and multiplies whatever we're grateful for.

#4 Joy and Delight Receptor- Activated through our palm chakras, this allows us to experience and magnify the joy and delight of any event or situation, maintaining a positive outlook.

#5 Visioning Magnifier- This is a "hat" like device we wear on our head that provides a powerful magnification of our vision of whatever we would like to create in our lives.

#6 Rainbow Arc of Simplicity- This tool looks like a rainbow and is placed behind our heads. It is used by placing it around complex situations or projects that need simplification, bringing clarity to our intentions.

#7 Situational Road Map - Allows us to 'magically' identify a clear path accomplishing our goals. We tell it where we are and where we want to be and it draws out the successful path on a map.

Publications

Children of the Light- It's an uplifting story of the personal experiences of a father, son and daughter, as they explore the realms of higher universal consciousness, the realities of a-gelic support and the growth-accelerating qualities of the Light. Seen through the eyes of Kevin and Katherine, we are exposed to the multi-dimensional aspects of Indigo and Crystal Children and how every day their experiences are life-altering. While one child entertains guests from the 'other side,' the other travels through swirling portals that go back in time to the Knight Templars - and even to the dinosaurs! An-els appear with crowns and blazing swords, and in one instance as a musical ensemble.

For international reader, Children of the Light is being published in Germany under the name Kinder des Lichtes.

Circle of Lights Journal (now an ebook) - This journal supports parents and their children in their s-iritual journey, by teaching families how to perform color ray h-alings with universal Light energy and to help raise the Earth's vibration during this crucial time. Families learn to partner with Light beings from various dimensions. The Journal goes into greater depth for Lightworkers with special meditations for impacting the planet. You and your children will receive special thanks from the kingdoms of the ang-ls, devas, fairies, animals, dolphins, and Lightworkers from various dimensions and planets. These meditations are guaranteed to get positive reactions and support from H-ly Beings stationed throughout creation, as they literally observe your family generating more Light and providing healing energy to the planet.

Agents of the Federation Booklet- This booklet reveals what very few people know and what the world's leaders want to keep from you. Inspired by Lightworkers from the Galactic Federation, this booklet will share how the federation is working with millions of starseeds to help bring this planet into the n-w age. Yet only 10-15% of those who participate are aware of their involvement. What about you and your children? Bryan and his son Kevin share their experiences of working with the Galactic Federation on a variety of Earthly missions.
