This talks about Uri Geller.

Elaine Bickle: I worked for a N-SA-funded lab as a research assistant when I was in grad school. The lies told to the public are overwhelming! Richard H-agland tried to tell the truth about some things and his pass to the base was taken away. I saw data come in from Voyager that showed two kinds of chlorophyll on Europa. The next day NA-A said it was all faulty data. I've heard some of the people saying they will tell all this when they retire. I'm not privy to the inner workings except through the grapevine. Hoaland did get some of his data from someone at the TOP who sec-etly unscrambled the radio broadcasts from the Space Shuttle so people all over the world would pick it up. It's just that when someone does that, no one believes the data is real I heard many of the military guys arguing over sending civilians up in the Space Shuttle because they couldn't trust them not to tell what they saw up there. When the Shuttle blew up with a civilian on board, I was not surprised They (NAS-) knew it would blow up.

That long, fish-looking object was nicknamed Annabelle by the Apollo 12 astronauts. It is a mining-machine. There are many of them across the Moon. There are smaller ones that leave behind tracks very similar to a sea turtle coming ashore. There are pictures of alien spaceships on the Moon from the Apollo missions. There are some pictures taken from Earth on a good telescope that show recent action. -ASA's own Ranger 7 and Apollo pictures that show CURRENT activity on the Moon. You can see openings and machines, what appears to be solar power stations on the Moon. ALL ACTIVE! The following is a quote from the October 1969 Air Force Academy textbook:
From available information, the UFO phenomenon appears to have been global in nature for almost 50,000 years. The majority of known witnesses have been reliable people who have seen easily-explained natural phenomena and there appears to be no overall positive correlation with population density. This leaves us with the unpleasant possibility of alien visitors to our planet, or at least of alien-controlled UFOs. However, the data are not well correlated and what questionable data there are suggest the existence of at least three and maybe four different groups of aliens (possibly at different stages of development). This too is difficult to accept.
It implies the existence of intelligent life on a majority of the planets in our Solar System or a surprisingly strong interest in Earth by members of other solar systems.

Elaine B-ckle: The Moon has many metals such as titanium. They may be mining to extract water or oxygen. What is valuable or useful to us may not be to them. Several species of aliens are living on the Moon and that it may be a world-sized spaceship. It would have to be the act of an intelligent agent to move a planetoid the size of Luna. Also, there are reports of other moons around other planets disappearing and reappearing elsewhere. When all these reports are taken together, there seems to be a lot of activity in our Solar System and humans are not the cause. One of Mars' moons was once around Mercury and then it disappeared from Mercury and appeared around Mars. This happened at the same time that a whole crater disappeared from the Moon (circa 1870s). Some people say this didn't happen. It did. The astronomer who pointed that out lost his job. That's a very good question (Gravity-Lock) and there is some debate about that. I'm not a physicist, but I will give you something to think about. Io is a moon of

Jupiter and so is Europa.

Why is one a volcano planet and the other frozen? Why are some moons tidally-locked and others not? Richard Hoaland was asked to present his research to the U.N. in 1992. In that address, he gives powerful mathematical evidence that higher dimensions are working on our Solar System. There are so many things such as tidal-lock that cannot be explained without bringing in higher dimensions.

DY: Is 'mascons' on the Moon evidence that something strange is happening? Most definitely! There are many unexplained features on the Moon. There is quite a bit of evidence that Apollo 13 was attacked because it held a N-CLEAR device that would be set off on the Moon to gain seismic data. If I were living on the Moon, I wouldn't want nukes going off in my backyard. Data would have shown that the interior is inhabited. Mars was inhabited in the past and may still be. There must still be a defense system present because it keeps shooting down U.S. and Russian orbiters and probes. Russia has pictures of what shoots down their orbiters. I have talked with civilian and military remote-viewers. They both agree that a sad, but powerful presence is there. It is beyond doubt a communication from Mars. Mars position was closest to Earth in October 1924. There was a day of RADIO SILENCE. C. Francis Jenkins had invented a crude television camera. He pointed this camera at Mars on the day of radio silence. His camera filmed a signal containing a face and symbols coming from the planet.

HIGHLIGHTS OF DOUG YURCHEY'S INTERVIEW WITH JORDAN MAXWELL IN 2004:

[JORDAN MAXWELL continues as the preeminent researcher and scholar in the field of occult/religious philosophy since 1959. He served for more than three years as the Religion Editor of Truth Seeker Magazine, America's oldest free-thought journal since 1873. His work uncovering the hidden foundations of Western religions and Secret Societies creates enthusiastic responses from audiences around the world. His research on the subject of Secret Societies, both ancient and modern, and their symbols, has fascinated crowds from many countries for four decades].

I'm just giving you an opinion, a subjective opinion based on my feelings on the subject...and talking to people for 40 years on the subject, I am totally convinced that something very legitimate did happen in Roswell. And I shouldn't be a bit surprised if there were alien bodies there. I sat for 3 days and 3 nights with Richard Hoagland (1995) up in Oakland at a private conclave, with 6 other people there were 8 of us. For 3 days and 3 nights we sat in a hotel; we rented a table in the restaurant. The idea was 8 people were sitting around a table and at that conclave we discussed everything we were doing. Richard Hoaland gave us some really startling information, being a spokesman for NA-A. It blew my mind what he was talking about. He did not mention, at all, Mars. He had extensive comments about what NASA knows is going on on the Moon...and that, most likely, according to NASA's best figuring...the Moon is, most likely, hollow. It has a metal superstructure. It's been hollow and was probably BROUGHT here. I'm totally convinced of that for myself. I have reasons for saying that. I have heard all the other arguments, which are saying that the phenomenon that we call Reincarnation is explainable in another way. I've thought about it and I still don't buy it. I am aware that this country was founded as a corporation. The British East India Company, which was supposed to be the British East India Tea Company. The British East India Company the United States.

And when the first 13 colonies were founded, they were not called colonies. In point of fact, they were called 13 individual COMPANIES.' When you get into Freemasonry, you're getting into what I would call...a briar-patch...because there is so much we don't know; that we're not privileged to know. One thing I am convinced of, beyond a shadow of a doubt, is that everything is connected. Nobody is an enemy. Nobody is a friend. It's all just business. You will find Scottish Rite Masons who are at war with York Rite Masons. York Rite Masons are at war with somebody else. The Vatican is in it. After awhile...you begin to see everybody is trading their money and trading their stocks.

These are power-plays?)

Yeah. That makes sense because one of the most powerful symbols in Fre-masonry is ORDO AB CHAO, which is Order Out of Chaos. The idea is...if everything just sits quiet, nothing gets done. The more CHAOS and all the trouble going on...stuff gets done! You can set up pol-ce departments; you can set up go-ernments. You can set up an ar-y; have a bigger arm-. It's all business, don't worry about it.

(DY: I sent you a quote from the film 1984 that the -ar with East-Asia or Eur-Asia

did not matter, the w-r was meant to be CONTINUOUS. The ruling group makes wa- upon its own subjects to keep the structure of their hierarchy intact).

So, they can keep control over you.

Thank you , Jordan)

Interview with URI GELLER on 1/24/04:

Uri Geller was born in Israel on December 20, 1946. His parents are of Hungarian

and Austrian descent and he is distantly related on his mother's side to Sigmund

Freud. At the age of four he had a mysterious encounter with a sphere of light

while in a garden near his house. He first became aware of his unusual powers

when he was five.

One day, during a meal, his spoon curled up in his hand and broke; although he

had applied no physical pressure to it.

Geller served as a paratrooper in the Israel army and fought in the Six-Day W-r

of 1967 during which he was wounded in action.

For a short time, he also worked as a model.
