Subject: Mars. Part 3.
Mar. 16, 2011.

This talks more about Uri Geller.

.....
.....

In 1969, Uri demonstrated his powers of telepathy and psycho-kinesis to small audiences. By the end of 1971, however, his was a household name throughout Israel thanks to his numerous stage appearances. He was given a plug by the then Prime Minister, Golda Meir. When asked on a national radio program what she predicted for the future of Israel, she replied, don't ask me ask Uri Geller! [Uri is always extremely busy; living in a whirlwind of projects that concern people from the highest levels of government to the poor of the Middle East. When I spoke to him on the phone, he had just returned to England from a meeting with VP Dick Cheney. (Kings and Queens have had their mystics). He was gracious enough to grant a small interview. He actually had to interrupt our conversation, do a radio show and have me call back twenty minutes later. He will be appearing on Geraldo Rivera's show later that day. A week ago, Uri hypnotized Michael Jackson and asked him the big question].

1. I'm not sure if SPECTRA is something you talk about. Is there anything you can tell us about these aliens who gave you your psychic abilities? I have seen UFOs in the Israeli Desert with Andrija Puharich. I could also feel their presence. They were not a threat, but a good force. They made contact through voices in my head. The main thing was that they were POSITIVE.
2. Are they still in contact with you? No. Not totally. I still feel that I'm been watched. But, we're not really in touch anymore.
3. Do you have any idea when the PUBLIC, or Earth people in general, will be contacted by extraterrestrials? I believe that this will happen in the next 50 years.
4. Are you a believer in a Roswell spaceship crash and grey aliens from Zeta Reticuli? Something certainly happened there. But, does the government have alien bodies on ice? I highly doubt that. I have heard of these dragons that go back to the time of Nazi Germany. (Reptilia There is a chance that these extraterrestrials, or whatever you want to call them, are real.
5. Do you believe in Atlantis? Was there a lost technology in the past that was even described in the Bible? Absolutely, yes.
6. Then you feel there were great wars, possibly atomic, that destroyed this ancient civilization? Yes, certainly.
7. Speaking of your abilities, are these skills as strong as ever? Have they diminished over time? No. They have gotten even stronger over time. Like anything that you practice, you get better at it and improve.
8. Have you any recent projects that you are excited about? Yes. I am a not a healer, but I do try to help those in need by being POSITIVE. We have a project called Hole in the Wall, along with Paul Newman, where we give assistance to Israeli and Palestine children.
9. Why is it that no one has ever done a film of your life? They have! It was called 'Mindbender.' Terence Stamp was in it and it was directed by Ken Russell. A young, Israeli actor played me. But, it wasn't very good.
10. A0 How do you think your friend, Michael Jackson, will do in court?

I am a skilled hypnotist and was doing that long before I performed in public.
I did hypnotize Michael some days ago to cure an urge for peanut butter. While he was deeply hypnotized, I asked him about the charges. His response was NO. I am convinced of his innocence; that he never molested children. [When I first thought of the possibility of an interview, I e-mailed Uri and asked him about it.
We are far from friends. This was the first time in 28 years that we had spoken; although we had e-mailed each other a few times recently. Days passed. I was sure he was too busy and would decline. Then, surprisingly, he agreed and gave me his home phone #. I was touched that at the end...he asked about me, my art, my daughter, etc.
The last thing he said was 'find something to love in this world.' I will always remember those words.
Thank you, Uri].

Read online, My Experience with Uri Geller and discover the strange events that led to my meeting with the psychic in 1976. Uri posted the article on his website, I was pleased to learn.
In 1976, I was married to a very psychic woman that could also bend spoons with her mind. On one particular occasion, witnessed by others, a spoon bent to its maximum and went ENTIRELY UNTOUCHED!
How does a spoon decide to curl up on its own? What kind of world do we live in when utensils act funny?

Geller wrote free passes (for us) to a performance at Soldiers and Sailors Auditorium in Pittsburgh, Pennsylvania on 6/18/76. People brought broken watches and spoons to the performance in anticipation of the phenomenon happening to them.
Uri asked the crowd, if your keys have bent or watches have begun to work, please come forward to the stage. Our spoons and keys bent, but as I marched forward; I was a little surprised that it didn't happen to everyone. Actually, the weirdness called the Geller-Effect only occurred to about 5% of the audience.
I was far more surprised when Uri saw me. He said, no, not you. I don't want to deal with you.' I was speechless as I made my way back to the seat, dejected.
Later, we figured that he only wanted to work with people he had never seen before. Someone may have witnessed our previous meeting and thought my bent items were not legit.
Lesson learned was, the man has integrity.
Are you going to believe the fake/phony magicians who have made a living by deceptions?
Uri liked my drawing of him.
ESP Magazine ran a cover that proclaimed: IT COULD BEND KEYS!
A real psychic happening will occur as Uri Geller would concentrate at one precise moment. Also, a 2-digit mystery number will be sent. We joined along with probably countless others. Would everyone concentrating BEND at one particular time, focused on the magazine, have any effect? Guess what? Our spoons BENT and a broken fish pump fixed itself that was placed on the magazine! We also, correctly, received the mystery number to be 42.
Our Universe is unreal.
Nature is not natural. Life is unreal. Do we really live inThe Matrix?
COMETS are incoming material from the outer reaches of the Solar System. They do not have planetary, elliptical orbits. They have extreme cigar-shaped orbits. Comets speed into the center of the Solar System, accelerate around the Sun and warp back out to the remote Kuiper Belt. Something FORCED the comet-material into extremely long orbits.
Great explosions are the likely cause for the creation of comets.
What if comets are remnants of unnaturally, blown up worlds?
Cosmic explosions might not be natural, but purposeful acts of violence by advanced intelligences.
Did a FAR outer planet explode and create what we call comets?
Similarly, supernovae also might not be natural events. Is the violent universe we are within composed of mega- explosions that are not natural events, but purposeful acts (aggression)?
The Universe(s) is not only gas, dust and debris. What if our one universe itself is an artificial construction? Where scientists see only lifelessness,
there could be life. What we believe is natural, could be artificial.
Out of ignorance, we may be viewing the universe the wrong way. Maybe the truth is our whole world was fabricated? Was it all CONSTRUCTED or manufactured by high, supreme intelligences far beyond our comprehension a very long time ago?
Is every star what it appears to be? A few stellar objects could have other purposes to other creatures. They could primarily be life-giving, nuclear orbs of radiation and energy.
Suns could also have been meticulously placed in positions to see what life will be seeded in the Petri dishes? Are cosmic orbs experimental

gardens in fertile, astronomical, test tubes? Are we all inside an unreal Truman Show? (Read, Yurchey's Talking to a Sea-Monkey?).

There could be life forms out there so advanced that they are

PLANET-MAKERS.

(Slartibartfast?) They could build planets, satellites and ignite the sun-centers. Other, even higher, ETs could be in charge of maintaining whole GALAXIES. And others, still more advanced, could be in charge of clusters of galaxies.

There are no limits to the UNIVERSES or to what extent Life is capable of building within them. Imagine our Big Bang and a GIANT that can make that explosion into a small sphere of energy because they are that BIG!

Then,
what else is there?

Oh, LOOK the giant takes a spyglass and sees a long, long way through the dark void and what is observed? IT sees another little firecracker going off. IT turns in a different direction and sees another and another far flicker of Little Bangs to the giant.

It is an article (& film script) posted on World-Mysteries website where this section of IU is cut and pasted. Seriously, next pages attempt to solve the tiny mystery of G-D while Part 3) attempts to solve the micro mystery of HUMANS!

ENOUGH OF THE ARCHITECTURE WHAT ABOUT THE ARCHITECT?

G-ds to Go- and back again

Who IS this G-D-person, anyway?

What is -od? Everyone asks this dull, drab, boring question. Here is the problem; it is just too large of a question.

What is the answer to Life, the Universe and Everything? (Ask the mice; they have been experimenting on us). TOO BIG of a question is the dilemma. Why not ask how suns and planets are created? Why not ask how humans can be made? No; people want to understand the big picture as if they CAN. They cannot. Nevertheless, they question, who is the Architect of it ALL? Who is the overall Builder? People ask, what is G-d? as if they can grasp the answer. They cannot even understand the question. The problem is the question of Go- is not understandable.

Part 3.
