Subject: Information From Gaia. Part 2.

Mar. 19, 2011.

This talks about the ring of fire.

.....
.....

Are the problems Japan is having with the n-clear plants at this time a warning not to use nuclear power to generate electricity, or for some other reason?

Good question Tom. Yes, it is a warning but the warning is to force countries around the world to better protect facilities and to phase out old plants or retrofit them with new versions. And yes, the story you saw of the smaller reactors, which can service 20,000 homes is another way to go, as these are quite safe with many built in safeguards. I'm not saying to not use nuclear power Tom, as this is part of your learning experiences until you adapt more energy devices, which will one day completely take over for these plants. There will be f-ee energy devices or p-rpetual energy devices, which will be made public, and these will be much better obviously than the plants. But there is a natural progression which is speeding up now which will allow funding for this, where in the past they were blocked from doing so by the power companies. Fear will overcome greed you might say.

How many people will be affected in Japan by the meltdowns, and will this fallout reach the North American Coast?

Yes Tom, several thousand people in Japan will have radiation sickness due to the failure of not only the ones on the coast at present, but also others.

And no, the amount of radiation released into the atmosphere will not affect the population on the North American west coast. They are reacting, shall we say, in fear. Certainly there might be a small level of increase, but nothing your bodies can't absorb, for as you saw on the TV yesterday Tom, your bodies absorb radiation all the time with no real effects.

Did the Comet Elenin assist you in moving the earth near the Japanese coast?

Just a tiny bit Tom, although you thought I would say not at all. Again I am able to utilize the services of not only the moon, but the position of the planets too, and there are major aspects coming, which will assist me again in moving the earth.

Let's say a Benevolent P-ayer Out loud for the people of Japan:

I ask any and all beings to keep safe and assist the people in Japan in recovering from the earthquakes and the nu-lear plant disasters, thank you!

If you wish to read a touching story about survival in Sendai, I recommend this blog:

<http://www.facebook.com/notes/monica-ritchie/a-personal-report-from-a-survivor-in-japan/10150132080657764>

MAY 10-25

Cat emailed and asked about the St. Germain ch-nneling in the Golden Light newsletter stating California would quake in the period of May 10-25, so I asked Gaia about this.

Gaia, St. Germaine cha-neled through someone that California will shake between May 10 to the 25th. Have the souls living in California given the go ahead for any major movements there yet?

Not at this time Tom, but they will see movements there this year, so you could say they have given their approval, just not on the time table chann-led by that person.

So I assume there will be a build up of pressure there during the coming months?

Yes, Tom. Scientists will see the connection between one part of the earth and another, especially along the Ring of Fire as they call it.

So again it is my understanding that there will be no major movements along the California coast during the next 3 to 6 months. Am I understanding correctly?

Yes, you are. Again, I will move California ♦ parts of it anyway ♦ this year, upon final approval of your so-ls I might add.

PIERCING NOISE BEFORE QUAKES

Patricia writes: My daughter, has been getting loud, piercing noises in her ear one or two days before an earthquake, this wakes her up at night as it is VERY loud, then her ear hurts for a couple of days after, the latest was the Japan quake and then another just as severe one today. Is this forwarning of another large one closer to where we are? These have been affecting her for the last two years whenever there is one anywhere around the North American continent but not nearly so severe, it seems the closer they get to us the stronger they are. Could you ask Gaia about this?

Theo, Patricia ♦s daughter seems to hear loud piercing noises in her ear prior to earthquakes. Why and what range does she have?

Yes, Tom ♦ she has this acute sense of hearing dating back to past lives Tom. She may think this is occurring out of the blue shall we say, but it is not. She has been in earthquakes in other lives and had the same ability. Here range, although not infinite, does allow her to be able to tune in to almost any major earthquake all over the earth Tom. She is able to pick up the P waves before the S waves begin. It ♦s a natural ability Tom, but was developed during a time when she lived in a highly earthquake prone area and there was no technology, as there is today to better sense the earth beginning its movements.

LEVITATING RUSSIAN GIRL

Ronald sent me this video of a young Russian girl supposedly levitating. Being in the film business I was pretty skeptical that it was real but asked Theo. Here is the link:

<http://www.youtube.com/watch?v=1370ykM25TU&feature=related>

Theo, was the little girl levitating in the Russian woods a stunt or real?

Yes, Tom, this was real. There are people who can do this with lots of practice. In this case, the little girl ♦s mother was assisting here, and they were interrupted in the lesson by the man. Again, this was no stunt Tom. As your other reader pointed out, she had levitated at some point before in her life. Yes, it can be taught, and takes a great deal of practice to be able to do this at will.

I posted this on Facebook and one of my Facebook friends said that she had levitated one time and it frightened her. If anyone watches FRINGE on TV they had a story about people floating just in the last week or so. Friend me on Facebook to get updates in the middle of the week.

BP ♦S BETTER THAN VISUALIZATION?

Thelma asked me to check with Theo about visualizing as compared to saying a Benevolent Pra-er.

Theo, is saying a Benevolent Pray-r more effective than visualization?

Much more effective Tom. Visualization can be used in conjunction, but visualization is a mental process, while the Benevolent Praye- and/or a request for a MBO is much more effective because it requests s-irit ♦s assistance in co-creating. As I have told you before Tom, this is the first major step in learning to co-create with sp-rit.

LOST CITY OF ATLANTIS?

Reuters had a story about archeologists in Spain discovering an ancient city in a marsh on the coast. Here is the link:
<http://www.reuters.com/article/2011/03/12/us-tsunami-atlantis-idUSTRE72B2JR20110312>

Gaia, is the city in Spain discovered by archeologists the fabled Poseidon central city, or one that perhaps was modeled after the original city but was constructed in an outlying area?

Good question Tom. This city they have discovered was modeled after the central city, just as here in the U-ited States you have several capitals and even houses or mansions modeled after the W-shington DC capital and White House. Naturally there was a reason for this alignment we will call it in energetic terms. Let's let them have their fun in their discovery, but to answer your question, this was not the main city, but a smaller duplicate of it.

Was it sunk in the tsunami caused by the sinking of the continent, or did the land sink, or was it flooded in a rise of sea level?

A combination Tom, as certainly there was a great tsunami caused by the sinking of the remnants of the continent, plus the sea level rose appreciably.

MORE ON HIMALAYAN SEA SALT

Denise in Perth, Australia writes: Can you thank Randy for the high blood pressure cure? I read it in the evening after having problems with HBP for about two weeks, which is unusual for me. I was not on medication and didn't want to go on any either! I prefer natural remedies. Well I read Randy's post and I happened to have some of that salt in the pantry. I was pretty shaky but went and made the sole straight away.

I was thinking that I'd have to wait until morning to get the benefit. Then I thought that it couldn't hurt to take a small piece on my tongue, so I did. Within twenty minutes I was feeling perfectly better! Amazing! I had such a restful sleep too. So a big thank you to Randy! My BP is still a little high, but I have an infection at the moment and your BP goes up with an infection. I am feeling soooo much better though!

Thanks Randy, wherever you are, as you've helped someone in Perth, Australia. So now you know you have helped someone else. Gives you goose bumps doesn't it?

For those of you who emailed, 2 cm's of salt is about 8/10's of an inch.

MORE ON MACULAR DEGENERATION

I received this information from one of our subscribers:

My sister has been diagnosed with macula degeneration and I found the article below with information about the nutrition necessary to reverse it as someone has already done so.

http://www.conscioustalk.net/detail.php?tbl=news&tbl_id=15

I hope this information is useful to someone.
