Subject: Information From Gaia About Japan.
18, 2011.

Mar.

Here is a newsletter that contains information from Gaia.

.....
.....

Sharing this as it may be a good idea to do some benevolent p-ayers to help lessen the destruction in Japan if a second major earthquake is imminent.

J-nis

Subject: The Gentle Way Newsletter 3/19

by Tom T. M-ore

INCLUDED IN THIS NEWSLETTER:

- ◆ MORE ON JAPAN
- ◆ MAY 10-25
- ◆ PIERCING NOISE BEFORE QUAKES
- ◆ LEVITATING RUSSIAN GIRL
- ◆ BP'S BETTER THAN VISUALIZATION?
- ◆ LOST CITY OF ATLANTIS?
- ◆ MORE ON HIMALAYAN SALT
- ◆ MORE ON MACULAR DEGENERATION
- ◆ MORE BASIC QUESTIONS FOR THEO
- ◆ NEW VERSION OF DAILY AFFIRMATION

Welcome to this edition of The Gentle Way Newsletter, and a special welcome to all my new subscribers all over the world. If you enjoy this newsletter, PLEASE FORWARD TO YOUR FRIENDS◆it◆s F.R.E.E! And if you wish to subscribe, go to

<http://TheGentleWayBook.com>

where there is a box on the home page to enter your email address. If you are

new to requesting Most Benevolent Outcomes (MBO◆s) and asking for Benevolent Pr-yers (BP◆s) for other people, you may also wish to SIGN UP FOR MY WEEKLY BLOG, which has nothing but GREAT MBO stories from all over the world. I typically post this one day after the newsletter goes out.

And have you requested that I be your FRIEND ON FACEBOOK yet? Please do so. I do give extra information there. I also post on TWITTER.

Since my last newsletter, the UN S-curity Council voted yesterday to establish a no-fly-zone over Libya to protect the civilians from more slaughter. I think our Benevolent Pra-ers assisted, but BP◆s are not as easy to get immediate feedback on as are requesting MBO◆s. I ask you again to say this Benevolent Pra-er OUT LOUD:

◆I ask any and all beings to come to the aid and assistance of all the people in Libya to keep them safe and to assist them in their change to d-mocracy, thank you!◆

SPECIAL EVENT COMING: Please mark your calendars right now for Saturday, April 16. I will be doing a webcast again with my producer Cindy Belmonte. You will have a chance to ask questions and I◆ll answer them live for one-and-one-half hours. See more details at the bottom of this newsletter.

SPECIAL REQUEST: If you have already befriended me on Facebook, would you please list my books in your favorite books list and the website as one of your favorites. You are very influential to your friends, and I have noticed that many of you have not done this yet. This will help spread the word around the globe!

Have you printed out the DAILY BENEVOLENT PR-YER and REQUEST BENEVOLENT OUTCOMES signs yet? Go to

<http://www.thegentlewaybook.com/>

and click on SIGNS.

At the bottom of this newsletter one of my subscribers has suggested a new way of saying the DAILY AFFIRMATION, also listed there. While there, why not explore the website, where you will find all the newsletters archived, my weekly blogs, and much more!

I publish this newsletter to help broaden your ideas as to how much more complex this world of ours is, and to spread the word about how requesting MBOs in your life and asking for Benevolent Prayers (BPs) for others will take you to another level of what some people term as ascension. These are simple, yet very powerful spiritual tools to use. Please keep in mind that this is an interactive newsletter. It relies on questions from you, and participation when you are asked to say a Benevolent Prayer for something happening in the world. I encourage you to send in questions of a GENERAL nature, which I can ask Theo or Gaia.

And a quick explanation for my new subscribers. Theo is my own Guardian Angel (GA) I communicate with, along with Gaia, the Soul of the Earth, in meditation (and a few others). This is something YOU can do with a little bit of work. Now for some interesting topics of the week that YOU requested, and which will give you a different perspective:

MORE ON JAPAN

(3/14/11) Gaia, will there be another major quake near where the 9.0 occurred in Japan, such as an 8.0 or so, or is that all for that particular coastline, with aftershocks of 5.0 to 6.3 or so?

Yes Tom, there will be another major earthquake in the very same coastline region of Japan, as the earth is still settling in this area and they will have one or more higher intensity aftershocks.

Will there be another tsunami?

Yes, although not quite as high as the previous one, but it will be significant.

This then leads me to ask Gaia, originally you said a major earthquake would occur to the northwest of Tokyo. Will this still happen in the near future, or is the major earthquake near Sendai all that the souls of Japan approved?

Good question Tom. Yes, there will be this major earthquake in their near future, as they, the souls of Japan, have given me to go ahead to move this particular fault line. It is under heavy pressure now, and with the next major aftershock, it should cause the fault line running near Tokyo to release.

You said this will be quite soon?

Yes, in their very near future.

So I want to make sure I am not interjecting here Gaia. There will be a major movement near Tokyo and there will be another major quake in that same coastline area?

Yes Tom. You are receiving me correctly.

Will the closeness of the moon aid you, or has it already aided you in moving the crust of the earth?

It has already aided me Tom, but certainly when it reaches the point closest to the earth in the coming week the gravitational pull will assist me in moving the crust there.

Has Uranus move into Aires assisted you, or do those planets Jupiter included, have a much less significant role?

They do assist me Tom, but not to the extent the moon and its position assists. Still they do contribute and not so much as they move from one sign of the Zodiac to another, but more how close their orbit takes them in relation to the earth.

(3/15/11) Gaia, I wish to verify my reception last time. Have the souls of Japan said yes to having another large quake and tsunami off the coast, plus the movement of the fault line near Tokyo?

Yes, Tom. There you have it. I will cause the large earthquake off the coast of Japan sometime in the very near future, and the tidal wave or tsunami will engulf the coast again, and although it will not be the height of the previous one, as I said before it will be significant, meaning 2/3rds to the height of the previous one. And yes before your next

question Tom it will be along the same general area as before. As there will be nothing to impede its way, it will obviously go a little farther inland than before.

Regarding Tokyo, as I said before the sou-s of Japan have approved not only the next movement for the coast, but also the fracture or movement of the fault line nearest Tokyo and on farther to the south.

Will this earthquake or series of quakes be at the magnitude of the 9.0 earthquake which was registered along the coast Gaia?

Not quite Tom, but certainly above 8.0. In that range you see. Yes you are receiving the numbers correctly Tom.

Will parts of Japan drop into the sea?

Yes, but not so much Tom, as again this is inland from the coast a bit.

Will this one cause a tsunami?

Yes, it too will create a tsunami, but not to the extent of the one created along the coast to the north of Tokyo.

How will the coming quakes affect the n-clear reactors?

Certainly Tom, several will be put out of commission and there will be a radiation hazard throughout parts of Japan.

So it will affect more nu-lear plants besides the ones already in trouble?

Yes, several more I regret to say.

Speaking of these reactors, it was reported yesterday that 50 workers remained at the Fukushima plant knowing that they may receive lethal doses of radiation. What sort of balancing are they doing?

Excellent question Tom. These brave people are balancing lives where they had taken a number of lives in the past through their actions. This will almost completely balance those other lives you see, and though they may die a painful way or manner, their souls were quite happy to have this chance to balance you see.

So how many people died in the first major earthquake and how many will perish in the second round of earthquakes including those near Tokyo?

Yes Tom. Certainly the death toll will be over 30,000 for the first major quake and tsunami and the second will be an equal number or perhaps slightly higher. Even though many buildings are fitted to resist movements in the capital and other cities, the great movement of the earth will take many structures down, causing a great loss of life and may I remind your readers Tom that each of these souls has chosen this for balancing purposes and for the experience for their souls benefit and knowledge. Your souls must have experienced this one or more times during your earth lives and these people knew this before birth you see.

Part 1.
