Message from Mira - Pleiadian High Council

A C-anneling from Mira from the Pleiadian High Council through

Let us see what Mira from the Pleiadian High Council has to tell  
us:

Mira speaks

Greetings, I am Mira from the Pleiadian High Council.

We surround you with protection and love. We assure you that we are  
influencing the course of events in your world. We have fleets of ships that  
are monitoring your atmosphere, the situation in Japan and other parts of  
the world that are unstable. This is part of our work. We are constantly  
doing what we can and are assisting you in a myriad of ways.

The nuclear situation is of great concern to all of us. What happens on  
Earth affects us and life far beyond your atmosphere. It is more serious  
than your media would have you believe. There are far reaching ramifications  
with nuclear technology. We have the technology to help clear and clean  
things up. We can assist from our ships but we would prefer to be visible  
and let our teams do even more under the circumstances. We want to impress  
upon you that it is not responsible of humanity to walk away from its  
responsibility to do what they can to prevent worsening conditions even  
though we have means to assist. We cannot do everything for you. The Earth  
has been in trouble with nuclear before. We hesitate to tell you what  
happened to the Earth as a result.

Because you are in a time of crisis we have our teams at work. We work with  
other members of the space family. We each have much to share and to learn.  
We love and care about you and the Earth. Your welfare is of our utmost  
concern.

There are many lessons for all to learn. You need new forms of energy. These  
are available. You will begin to see that your greedy industries will be  
forced to change their ways and for this we are optimistic. It will take  
some time for change but it will happen faster than you think. It has been  
known for some time that changes must be made. Your corporations dragged  
their feet because there was too much money at stake. This is the simple  
truth.

Now it is incumbent upon the citizens of the Earth to hold their governments  
and businesses accountable for their behaviors. It is no longer acceptable  
to think only of selfish needs and desires. The good of life and the planet  
are what is important. It is not just about financial gain when the overall  
potential for human loss and loss of the planet are so fragile.

The history of the Earth is being re-written. This is being done in  
collaboration with all of life at the request of the Creator. The Earth is a  
most beloved planet that is strategically located in all of creation. What  
happens on the Earth affects all of creation. Do you understand how  
important it is that things be handled correctly?

In our ongoing pursuit to assist the Earth and all of the bravest of the  
brave Light beings and humans who are on the Earth, we will continue to  
expand and amplify our contact. Know that you are not alone. Please  
understand the importance of the work that you are doing. We are doing it  
together.

Humanity's priorities are changing. You will begin to see progress from point A to point B and this will become unending until we restore the Earth. The Earth is doing her part to cleanse and heal what she needs to do in appropriate sequences.

We all love you and stand by as we proceed with our mission.

I am Mira from the Pleadian High Council.
