The Andromeda Galaxy. Any Decision by The Andromeda Council?

"This Awareness indicates that as long as earth allows the Draconians and Reticulians to remain and treaties have been signed, that this more or less creates a block to prevent interference from the Pleiades, Vegans or others. It is for this reason that any contacts will be of a very minor nature, more to educate and inform than to directly interfere or confront the Draconian, Reticulian and Orion Empire Grays. This Awareness indicates that the Andromeda Council is much like the UN on Earth; it has certain influence, but it has no power over those who refuse to abide by its recommendations. The Draconian Confederation, the Orion Empire; these do not give much credence to the Andromeda Council or its recommendations. They appeal to it when they see a change to benefit or to use it to their advantage. Therefore, at this time, anything given by the Andromeda Council in regard to Earth has been generally ignored by these entities.

The Battle is to Save the S-uls of the Earthlings

"Essentially, the so-uls of people IS the issue involved that is of greatest urgency to the Galactic Command or Confederation, for this saving of the sou-s is that which the s-iritual forces perceives to be the real purpose and value. The physical body is temporal anyway, and has only a short time on earth, but the sou- being permanent, being more or less eternal, is the more important concern. The Draconian and the Orion forces think that by making it appear the s-ul is just an illusion and that one's body is what counts, they find themselves able to influence people by fear and by coercion, based on bodily needs and preservation. And in this manner they actually capture the so-uls of entities who are trying to preserve their body and will do so at the cost of their sou-"

(Re-elations Awareness 93-14/NO. 423)

"This Awareness indicates that it appears that the entire box of Pandora, is becoming unraveled. The door is opening and there seems to be no end in sight in regards to the unraveling of activity, not just on earth, or even the solar system, but activity throughout the galaxy, which if the strings are examined enough, they begin to lead consciousness into looking into other universes. This Awareness indicates that it has been suggested: As it is above, so it is below. Entities may now begin to realize that likewise, as it is below, so it is above. Humanity has been plagued with w-rs, but humanity is not alone; so has the galaxy. This Awareness indicates that it does not appear that there is yet an end to the recognition of the influence of these forces in the galaxy and beyond, and that even the resolving of humanity's wa-s may only be the resolving of a small battle in the galaxy.

A Great Force is Moving across this Plane

"This Awareness indicates there is a great force moving upon your plane that is little understood by entities and may be likened unto a storm in consciousness, blown in from the p-ychic sea of the Fourth Dimension, that transcends time and space and moves in from ancient times of Atlantis and into the present moment. It is ready to be calmed, if that is allowed by the collective consciousness of entities upon this plane, or it is ready to wreak havoc if that is what it takes to complete its action.

"This Awareness indicates that this force, this programming, is likened unto a type of linear programming that has reached through thousands of years, by which entities were polarized as programmed parts of an incredible complex and massive computer system called "Civilization", wherein the script was written thousands of years ago, and historians of today are only as reporters and reviewers of that play, that dramatic epic that has played for thousands of years upon this stage called "Earth" This Awareness indicates the action of Ra-Ta and the builders of the Pyramid and Sphinx in ancient Egypt were designed to offer a greater attraction, a greater power than those of the Atlantean priests, and once the seekers of power were caught up in the Egyptian power, they were led along the path that brought them not only to power, but that enlightenment and realization that power was not the answer to the cravings of the appetite. In this action, many followers of Baal, of Luc-fer, were brought into the Law of One.

"This Awareness indicates that Edgar Cayce, the r-incarnate s-irit of Ra-Ta, opened the doors for the flood of consciousness upon this plane, to allow that force to begin moving from that Fourth Dimension into this present time. In this action, the Luci-er, The Rhyee, the personification of that first separateness, was given an opportunity to tap into this ancient power that began in Egypt, and in so doing, was drawn unwittingly into states of Awareness that led back to the Law of One, and this Awareness.

"This Awareness indicates that force known as Lucif-r is now being drawn out of consciousness and moving into Essence. The Head of the Beast, the original separateness, has already returned to Essence. Only the organs and body of this remains upon your plane, and must, in time, follow also into the return to Essence.

#### Why Awareness has Come at this Time

"This Awareness indicates all present attempts to pursue and maintain power and control over others are but creating structures that will inevitable be converted into systems designed to serve the people rather than to enslave them; yet, it is a matter of when this will occur, rather than whether it will occur. It is for this reason that this Awareness communicates with entities at this time, and it is for this purpose that entities need to look closely at that which is occurring on their plane, for these energies are a potential force that may be used for good or ill at this time, even as a wind may be harnessed for service, or may wreak havoc.

"This Awareness indicates any good computer programmer can understand the programming system used in Atlantis and Egypt if they are also capable of comprehending the nature of psyc-ic forces, and can comprehend the Pyramid and Sphinx as being likened unto the pituitary and pineal of the collective consciousness upon this plane, and the mummified corpses may be understood as human transmitters, capacitors or other ps-cho-electro-magnetic components.

"This Awareness indicates this action created great suffering for many millions of entities upon this plane, and that action from Atlantis was initiated for the glory and the power of the followers of Ba'al, the followers of Lu-ifer, the followers of the mind, and its structuring system of hierarchy, polarity, manipulation and control.

#### Ra Ta's Power Trap for the D-rk Force

"This Awareness indicates the Ill-minati that began in Atlantis, may be seen as the Da-k Force that sought power through deception, control and manipulation; and that Illu-inati from Ra-Ta actions of Egypt was designed to create a power trap that led to enlightenment and a return to the Law of One. We wish to express our love and gratitude to our Source of Being, our Creator who is guiding us through our eternal journey in Oneness.

"We also wish to express our love and gratitude to the people of the Cosmic Awareness Communication Organization and The A-uarian C-urch of Universal Service of Paul S-ockley, who for almost 30 years have been dedicating themselves to help people to become aware Who We Really Are, without those human efforts this document would not have been written."

#### Chapter 7 -- The Galaxy and the 24

"Sometimes I wish I could just pay the fine and go home."  
Robin William's character Jack Lucas in the movie The Fisher King

If the Tree of Life is taken as a symbolic reference to Man's quest

to return to the Higher Worlds and Creation at-large, then the "Fall of Man" or story of Adam and Eve can be seen as a symbolic reference to that 'fall' from those very same Higher Dimensions that brought both the planet and Man down to the level of 3rd dimension living. Now, like the character referenced from the movie The Fisher King, most of us really just want to pay the fine and go home.

In ancient times, the consciousness of those on planet Earth was in a higher state than before the "fall of Man" for the planet itself existed at a fourth dimensional level or higher, having lowered itself along the galactic spiral on the outflow of the Breath of G-d during the millions of years prior to that moment. As we shall see, this lowering was assisted or 'sped up' by events taking place on the planet as well.

In earlier days, matter itself was not in as dense or 'concrete' a form as we know it today. All m-taphysical or esoteric doctrines mention this fact, as well as attempting to explain the descent of spi-it into matter - the idea that So-l only came into the inhabitants of Earth at a certain stage in its ev-lution. In the earlier stages of consciousness, life also had a very different biochemical relationship with matter than it does today; planet Earth having gone through many drastic physical and me-aphysical changes since the time it was first colonized by the Els.
