This tells why the Greys abduct us.

"Zeta do whatever possible to keep the Starseed from awakening to its true identity. A sleeping Starseed is not a threat (and is prime for manipulation). Much of the "brainwashing program" has been employed to keep the Starseeds sleeping through distraction and fear of their own identities as appearing "out of the norm." They have also instigated a campaign to create separation and segregation between the Starseeds and Earthseeds, and also between Starseed groups, thereby exerting social pressure upon the awakening individuals.

"The Zeta and the Interior Governments have also "pushed" in certain places and in certain times within the Medical communities. The movement to discredit holistic therapies, and to use drugs for the treatment of "emotional" conditions not of a p-ychotic nature, the prejudice within the psychiatric professions toward "s-iritual" or "p-ranormal" experience, the repression of "women's issues" and "minority" rights--all of these things are fueled by Zeta "agitation" in the "right places at the right times." The Zeta and Interior also infiltrate r-ligious communities when needed to insure that the factions will remain at odds, to ensure that humans will not band together in tolerance, for that would be the demise of the old Zeta agenda. You would not believe the issues within your public forum that have come under Zeta/Interior influence at one time or another. Why do you think issues of UFO sightings are repressed and c-nsored from the media whenever possible? Who supports the networks? Advertisers, of course. Who might be influencing conglomerates "behind the scenes"? Perhaps a few "little grey shadows?"

Although not a direct participant in the Civilizations of the Twenty-Four, the Ashtar Command was created from a peaceful planet as an example for all non-peaceful planets to emulate. It is a planet which has seven major cities enclosed in crystal domes, or what appear to be crystal domes but are really energy fields held in place by a thought field from the general consciousness of the population there. According to the book A Pleiadean in Time, Ashtarians are very scientific; they are often researchers or inventors. They are tall and thin, and prefer to wear their hair long.

Other Branches Involved with Planet Earth

In compiling this history, the author could have had a more massive job on his hands than it actually was. The amount of literature on the subject is staggering to the imagination. Just because it is written, however, does not mean it is all true. Any history book in school is simply history as seen from the point of view of the dominant r-ce in the culture with a heaping amount of New W-rld Order manipulation thrown in. Therefore, history books usually have an agenda to support, especially when the publishing of those books rests upon their treatment of the current power structure in place.

In terms of Universal history, there has been literally a flood of new works over the past decade from people c-anneling this Being and that Being. There are people with access to ancient documents of one sort or another, or people reliving some moment from an apparent past life, either of their own, or of someone they have been able to tap into through their, p-ychic sensitivity to the Akashic Records.

Each one of these people, each one of these books, is not necessarily right or wrong. Many are deceptions perpetrated by the Opposition to confuse the issues and lead people astray. That is simply a given. As for the others, it is important to understand that they are written simply from one perspective upon the whole situation. If you are taking an elevator up the Space Needle in Seattle, you will have a different perspective of the city below at 100 feet above the ground than you will

once you get to 200 feet above the ground, and so on. Your vision may also be further restricted due to the direction in which the elevator faces. You will not, however, gain the full 360 degree view of Seattle and its surrounding area until you reach the summit and are able to see in every direction from the pinnacle of the experience.

The Nine therefore give this following warning as to the validity of the information available on any certain subject concerning the s-iritual works.

"If humans on the Planet Earth have (ps-chic) communication with a helper or a lesser civilization that does not understand the workings of all, then they are liable to receive misinterpretations."

The Nine themselves in turn are not privy to the even higher perspectives of the true Spir-tual Hierarchy of the Universe, not just those who are involved with this planet.

In dealing with the other civilizations that have come to planet Earth for one reason or another, it is important to keep this fact in mind. While some of these are simple visitors, and others one-time residents, a number of these civilizations are very w-r-like and very oppressive rac-s. This area of the Universe has seen many -ars since its creation. Some alien civilizations have been on the planet to plunder and pillage its resources much as the marauding tribes of Earth's history have done to other countries. Others have been here to exert certain influences on the gov-rnments of the world in line with their own agenda. Some are simply in league with "the Opposition," and have been used to help fulfill Luc-fer's ultimate goal. As the Nine like to point out, at times these inquisitive extraterrestrial Beings can create a problem. Civilizations which do not understand the background of what is taking place on Earth, who are visiting our planet for the sake of curiosity, research or experimentation, tend to get in the way of the delicate situation here, only helping to confuse issues further.

The best-known of these type of aliens are of course the notorious Grays or Greys, already mentioned. Theirs has become the face, and especially the slanted eyes, that now represent a whole Universe of alien civilizations. A small town of about 50,000 people in southeastern New Mexico called Roswell has made these little guys almost more famous than Elvis. The Greys are a r-ce from a star system known as Reticulum, or Zeta Reticuli, 37 light years away from Earth, but still in this galaxy. As any 14-year-old child can now tell you, they are the ones, in league with a couple of other r-ces, who are mostly responsible for the abductions taking place here on the planet.

According to the Nine, the Grays wish to know if they can exist upon planet Earth by taking tissue samples from abductees for culturing. They have been working with the cooperation of the earth gov-rnments for some time to try and save the genetic pool of their rac- by trying to cross it with Earth genes, as described earlier. The Nine give us a warning to be cautious of those from Reticulum and their motives. In fact they give a warning to be cautious at this time of all those visiting Earth:

"The Greys have an urgent hidden agenda of their own. The cover-up around the arrangement with the Greys is obscuring the bigger picture. . . (But) do not create the mistake of believing their higher motivation at all times in visiting your planet Earth. There are those who would wish to come here because they have begun the destruction of their own home physical planet and are looking for a place to relocate themselves . . . A portion of this motivation is indeed prepared for utilizing, if necessary, Earth species for their own environments, on their own planets . . . Therefore they are experimenting upon humankind and animalkind for testing the available possibilities."

There are many kinds of Zeta, but they are simply without Love. Like many alien -aces, they are curious about our emotions, particularly about Love. Some writers say that the Zetans desperately want the emotions that we here on Earth use so freely, and will actually come in another dimension to abduct your sp-rit, deal with you, ask you questions, and then return you to your physical body on Earth. Can they really do that? Yes they can. We are multi-dimensional beings living in a multi-dimensional Universe. Many abductees have stories of aliens without emotions who are so curious about emotions and seemingly uncaring toward those they have abducted and experimented on. The best answer suggested by one writer is to "practice lucid dreaming," being awake even while asleep and thus better able to protect oneself. The presence of this group of aliens on the planet, however, is fairly recent in comparison with many of the other ra-es.

William Bramley, author of *The Go-s of Eden*, says that abduction cases tend to follow a distinct pattern: a Human Being is involuntarily taken onboard a UFO, is given a comprehensive physical examination, and is then released. This appears to us much like what the catch-and-release wildlife experts do with game, especially endangered species which they wish to monitor - capture, tag, implant transmitter, and release. And don't get us wrong, implantation of monitoring devices is not just an X-Files fantasy.

Bramley details one of the most famous early experiences that took place with the abduction of Betty Andreasson:
