Subject: How To Help Japan.

Mar. 31, 2011.

Here is something that we can do help help Japan.

.....
.....

This may be a little late for some of you to participate in this ceremony at the exact time of 12:00 Noon, but when I attempted to forward this e-mail to you last night, I couldn't do it because "the system was down for being updated", (my laptop works off of cell towers, which I got through the Verizon phone company) so it wasn't until this morning that it was back up after the "system finished updating itself", which rarely occurs, so I appologize for the being late, but we can still send beautiful energy and continue to help with "vibrationally alterations" in the water around the Japenese reactor.

Namaste
Michael

Subject: 12:00 Noon in each time zone, on March 31st, 2011

To:

Dr. Emoto's Request for Assisting Japan:

Below is a special message from renowned Japanese Scientist who brought attention to the power of thought/prayer on water crystals. He has a special request for assistance tomorrow noon...

To All People Around the World,

Please send your p-ayers of love and gratitude to water at the nuclear plants in Fukushima, Japan!

By the massive earthquakes of Magnitude 9 and surreal massive tsunamis, more than 10,000 people are still missing even now It has been 16 days already since the disaster happened. What makes it worse is that water at the reactors of Fukushima Nuclear Plants started to leak, and it's contaminating the ocean, air and water molecules of the surrounding areas.

Human wisdom has not been able to do much to solve the problem, but we are only trying to cool down the anger of radioactive materials in the reactors by discharging water to them.

Is there really nothing else to do?

I think there is. During over twenty year research of hado measuring and water crystal photographic technology, I have been witnessing that water can turn positive when it receives pure vibration of human pr-yer no matter how far away it is.

Energy formula of Albert Einstein, E=MC2 really means that Energy number of people and the square of people's consciousness.

Now is the time to understand the true meaning. Let us all join the pra-er ceremony as fellow citizens of the planet earth.

I would like to ask all people, not just in Japan, but all around the world to please help us to find a way out the crisis of this planet.

*The praye- procedure is as follows...

**Name of ceremony: Let's send our thoughts of love and gratitude to all water in the nuclear plants in Fukushima

**Day and Time:

March 31st, 2011 (Thursday)
12:00 noon in each time zone

**Please say the following phrase:

The water of Fukushima Nuclear Plant, we are sorry to make you suffer. Please forgive us. We thank you, and we love you. Please say it aloud or in your mind.

Repeat it three times as you put your hands together in a p-ayer position. Please offer your sincere pr-yer**.

Thank you!*

.....
