Subject: George Carlin. Part 2 of 2.
April 6, 2011.

We will now conclude what Sylvia Browne's Francine had to say about George Carlin.

.....
.....

Once he spent time at the scanning machine and orientation all of his memories came floating back, not only of the life on the Other Side in which he had just returned but the life that preceeded the present one.... he was a b-ack man in the mid 1880s, wrongly conviced and executed for a murder he did not commit, the murder of a w-ite woman, which it was determined later that was actually committed by the presiding judge. It was understandable why George arrived angry and rebellious against "the system", and it was brilliant in him to have charted a sense of humor that would allow him to express his outrage through the power of laughter. He regrets that he found it difficult to distance himself from the penetrating that drove his comedy so that he could genuenly relax and enjoy his success from time to time. He also recognizes that he was conflicted about his success, loving the comfort it accorded him, but also not wanting it to get so comfortable that he would lose his edge, and it was in pursuit of that edge that allowed him to indulge in his addiction to cocaine. He wants his daughter to know how much he admires her, wishes he had been the fathter she deserved, and is intensely proud of her. He's also graftful to his second wife, who he said was more understanding and compassionate about the "baggage" he brought in their marrage than he could never repay. His life at Home is blessfully happy in it's own unique way. You need to remember that all of us maintain the same personality traits throughout the eternity of our s-irits---- the outgoing remain outgoing no matter how many times they i-carnate and return to the Other Side, the introspective remain introspective, the humorless remain humorless, those with a sense of humor eternally have a sense of humor and so on. George is no exception. He enjoys spending time in the Hall of Records, researching past and present charts of historically powerful men and women and enertaining at large gatherings with his singularly insightful perspective on those who experienced power on earth. He's also very devoted to study and meditation on charts of his own lifetimes intent on tracking the onset of his avowed atheism in an effort to learn how he grew to be so loudly, outspokenly wrong about the existence of G-d. He has no plans to in-arnate again.

Part 2 of 2.
