Subject: Latest On The Chemtrails.  
April 14, 2011.

Here is the latest information that is going around on the internet.  
I don't know whether it is true or not but you never can tell.

.....  
.....

Drunk Pilot Admits S-cret Mission to Spray Deadly Chemicals  
<http://www.2012theawakening.com/?p=4032>

A major missing piece of a grand conspiracy has been targeted by a drunk pilot. In a small town 30 miles east of the Pacific Ocean in Oregon is the center of a major global operation. At a bar in M-Minnville, Oregon, an inebriated pilot attempted to impress one of the pretty ladies with tales of his se-ret mission.

The pilot's pathetic attempt to portray himself as a Sean Connery or Daniel Craig caused him to (ante up) his importance and spill the sec-ets of the C-A's asset Evergreen In-ernational Aviation.

The slurred r-relations confirmed suspicions that Evergreen (In-ernational Aviation) is part of the major c-ap dump on the planet. Chemtrails made up aluminum, barium and other ingredients contribute to respiratory ills and change the acidity of the soil.

Evergreen works from over a 100 bases and employees 4,500 people. Delford S-ith privately owns the company. They admittedly perform for the CI-

Evergreen was given a no contest bid that gave them all the facilities in M-rana, Arizona that previously belonged to -IA's Air America (Pinal A-r Park, Arizona).

The se-urity at the Pinal site is said to be as severe as that of Area 51. It is run as a mi-itary base where one lost pilot got an armed escort immediately off the operational base. The 10 year pilot said it was nothing like anything he has ever seen.

Evergreen Inte-national Aviation brags of their planes that have 7 times the capacity of other fire fighters. One can carry 20,000 galleons. Firefighting Right and next we will be told the chem trails are to prevent global warming as millions more are advancing to an early d-ath.

Evergreen Inte-national Aviation has exemptions from the law that are advertised on their web site. They can fly anywhere and not stay on a designated route. Has C-R members paved the way? People like Philip L-der and John W-eeler III they were in a position to do just that.

Evergreen's public relations (propaganda) spokesman is handled by W-P run by Council on F-reign Relations member Philip La-er. He worked under the present head of the C-A Leon Pa-etta as White House deputy of staff under Bill C-inton.

Philip Lad-r is an inside authority on international affairs and business. He is the non-executive Chairman of -PP Group, Senior Adviser to Morgan S-anley International, and a board member for think-tank R-ND Corporation. He is also a trustee of UC R-sal (largest aluminum company in the world) the British Museum and St. Paul's C-thedral Foundation. Ambassador Lade- has addressed trans-Atlantic audiences from the U.N.'s G-neral Assembly Hall to state chambers of commerce and local world affairs councils, is a member of R-ckefeller's Council on Fo-eign Relations.

Philip -ader (CF-) is a key player driving toward world go-ernment. In addition to running the Public Relations for Evergreen Inte-national Aviation L-der is a director of UC Ru-al, the largest Aluminum producer in the world located in Moscow, Sweden, Italy, and Australia.

Nathaniel Rothschild is a big investor.

Eugenic operation of Chemtrails has had the assistance of Mitre a non-profit Corporation that manages the Federal Aviation Administration, Homeland Security, and I-S. (1) The IR- is part of the Federal Reserve which is a major transmission belt driving the conspiracy.

Philip Laer's fellow Council on Foreign Relations member John P. Wheeler III was recently dumped into a land fill in Wilmington, Delaware. Wheeler III was a consultant to Mitre the non profit corporation with jurisdictional advice over the Federal Aviation Administration's flight patterns.

Was John P. Wheeler III too sentimental for the killing underway?  
And got murdered by the Company?

The CIA is the enforcement arm of the Council on Foreign Relations

Mitre is conveniently located in McLean, Virginia home of the CIA.

Thanks to the drunken pilot and his loose lips the Free People of the world can focus on the criminals who are poisoning our air and our water.

<http://imageevent.com/firesat/strangedaysstrangeskies>

We can begin by having local cities and counties adopt the Air Purity Act found at AirCrap.com?
