Subject: Mother. Part 3 of 3.  
April 22, 2011.

This tells more about what the Mother can do.

.....  
.....

Nature works wholly and synergistically in its wholeness, and the m-gic, healing and beauty of the experience lies there. By consuming these plant gifts as whole you experience the plant's life itself, and become acquainted with that being. You merge with its consciousness, and are a joyful part of the entire Kingdom in which it exists. Such experiences reveals you to yourselves, and you become the self autonomous one, needing no other human to guide you in living an honorable life because you have partaken of a portion of the Mother's gifts in whole, and through them, they have imparted to you more wisdom.

'The Shamans know this and have many experiences considered fantastical because they have related to me and the plant, consumed the whole plant in its natural state and honored the process.....the m-gic lives in the wholeness. The patriarchy have separated the plants parts from their wholeness and created distortions resulting in 'm-dicines' that kill, create sickness and a dying and crying species, just as they have separated the Mother from the Human race and called them 'my children'..... exclusive products of a Father, Son and Holy Ghost, Allah, etc, which has resulted only in the Fall of Human Consciousness as a singularity. What men are doing to animals to be consumed, I cannot even speak of. The pain and agony of such feeling creatures is untold.

'Nothing is whole in this separated state, nor conscious...and the Human species is screaming and calling out for wholeness, and this means the Mother must be loved and re-embraced in order to be brought back to completeness. What is also not understood is that the children of the Mother will die without her.

'The Mother is the Living Mythology for all Humanity and all of Life, all her creatures. It is within this consciousness in what we call the imagination that She is KNOWN and FELT and UNDERSTOOD....not in the 4% of the mind of logic or the reptilian functions of brain. The stories of the Mother are known when we enter into the imagination. The most respected genius of your time Einstein is known to have said, 'the imagination is far more important than knowledge'.

You must meditate on this, live with this, experience this for days on end to understand it fully. All solutions and creations are born in the imagination, it is the stuff of life, where it all begins...it is where I dwell. In the imagination you will find the stories, the mythos of truths that speaks of the Mother and her Life giving creations, it is there you will find rejuvenation and the rebirth of your spirits and the spirits of the others torn from you.

'What is happening on Earth now can be changed to be better suited to sustain life in a beautiful way, if you utilize my abilities within you. You must have love for me and believe in me, claim me as your mother, for if you were born on this body of Earth you are surely my children. As it is true that many do not have the Mother as a reality within them, these ones are lost and pained souls.

'Those who love me cannot know a sadness of this kind, ever.

'Goddess has been heralded as the Return of the Feminine in the coming times, but it is not that way. It is the return of you to me that will regenerate the life on this body of Earth as you call it. I have been ostracized and through occult means you have been stripped of abilities to be present within my Mothering and Nourishing consciousness by your programming by priestly vehemence and bodily means, but nothing has been as powerful in our separation as their teachings enforced by the literal burning of people alive by the dark priests proclaiming that I do not exist or that my existence is no more than

a support function for the male.

The destruction of all aspects of life in which the Mother was revered has been systematically and painstakingly removed by male madness, violence, burnings, mass murders, continued today through the mass raping of women in war zones and the demoralizing sickness of pedophilia as secret, yet is pandemic in all parts of the world. These are deep psychological scars seared within the consciousness of Humanity by men the world over, and no one on Earth does not feel this pain today.

This is where you had your last conscious connection with me. It was wrought with beliefs, violent oppressive practices, and finally steeped in the technological madness that is the dark patriarchy. Even in the recent uprising in Egypt the men were the ones who took to the streets for when the women did, they were told to go home, and were sexually attacked by the male bystanders with police forces looking and watching, doing nothing to stop the violence against the women who fought for their unique liberation. They still want women to be as less than animals, silent and retreating into invisibility, servile and powerless.

'This is an agenda against my existence and the reasons for the Life I give.

'They want to completely sever the ties between us, but they shall never succeed. The idolatry of mechanations and gadgets has brought you into the reptilian agenda, of instinctual/survival living as opposed to intuitive/thriving living, and dependency on the males creations. The life I have created for you has been one of complete and utter self reliance and sovereignty based on synergy and harmony with all my creations complete with great internal power....you need nothing other than what I have provided for you to live the most wondrous and magical of lives you can not even begin to imagine....this is to occur only with your merging with me and my consciousness, in love, as your Mother. Together we can change the world in which you live, without me.....I cannot say.

'You have powers beyond your imagination. Together we can turn the nuclear waste into stardust, and smile in joy. You must all meditate and visualize this together in unison which is the Way of the Mother.... in Unity, as we are all One Being. The dark priests have taught you otherwise that you are powerless and you are victims and servants of their life destroying heinous creations, that you are about to deepen masse....do not go into that consciousness, I ask you to remove yourself from it and to merge with Me and the Forces of Light and Life and Love....theirs is the 'Separation from Mother' agenda. They didn't want the powers the Mother gave to you known to you. Mother only gave you the best of all things.

These dark ones are not only human males, but have used the Human male to a great extent for this. He knows not how he is used. Yet cares not still for his Mother.

Many have called together circles of meditations and prayer and are the power force behind most energetic healings, and so in this way you can affect the nuclear radiation also. Imagine it, Imagine it as stardust, all of you as one imagining this as stardust will create it. I am with you. **\*smile\***

~end.

I could not possibly type out all I was given, and the day is almost done. I hope this is helpful to many.
