Subject: Mother. Part 2.
April 21, 2011.

This shows how we should respect Mother Nature. Don't look now because "Mother's Day" is coming soon. As most of you already know I recently had my pace-maker, defibulator replaced that was connected to my heart. Good news, I'm all recovered from this and my heart that, for more than 6 years had a unregular heart beat, is now working OK and it now beating properly.

.....
.....

They replaced them with distorted versions of her mythos, and built c-urches etc upon existing s-cred sites. They distorted the all seeing third eye into big brother tyranny. They introduced subordination to earthly 'father' figures of p-pes, priests and p-liticians, s-avery structures and needs for tools and devices and lastly with a mechanistic industrialization of the source of nourishments of life force from the Green Kingdoms into agribusinesses of contaminated seeds with chemicals and consummation of brutally abused animals. Very few cultures maintain the value of the Mother in their cultures today, and those who do now live in abject poverty.

'In every single instance in which there is no love for the Mother there is suffering and pain, every single one without fail, from the microcosm to the macrocosm, and this misogyny also takes place off planet.'

'The ch-rch is based on twisted truths specifically pertaining to Je--s who came to Earth, who was sent to Earth to call consciousness back from the unconscious state by reminding us of the love of woman, of Earth, of plant life, kindness, compassionate and peaceful coexistence with all living things as the Mother birthed it. That the man Jes-- taught peace, love and kindness, tolerance and forgiveness was not a falsehood, but a much needed truth, and patriarchal madness k-led him, and their chu-ch's based on pure ev-l intent corrupted his messages of love, making a p-ostitute of his beloved Magdalene and by exemplifying his brutal d-ath on the cross as a b-oody and d-ing man, thus kil-ing his message and his purpose...they let it be known who and what is in charge, and what the message of love and compassion and love for woman will bring you.

He was -illed by an agenda, by a dark patriarchal force of madmen, by pathology of soc-opaths who still rule all the world systems today. All of the Feminine Virtues are attacked by dark patriarchy and by none other.

They did this because the Mythos of the Woman, the Feminine, The Mother was not to be allowed to live as was created, and by --sus' time they were well on their way to carrying out their plans to destroy Humanity by the elimination of the Mother and all her attributes and virtues because they know that to extinguish the Mother the child suffers in every way.

To this day it is considered heresy by the V-tican men to allow women to become priests as it is considered on par with child r-pe to ordinate women as such. Such is the mentality that governs the s-iritality of Humanity on Earth. Inclusive of that are the other major re-igions where in 2011 it is forbidden to have female R-bbi's, prophets, or one equal to a male in the M-slim worlds.....today. But it is allowed to k-ll women who expose the skin of their arms or legs.

'That the world is asleep to this pandemic h-tred is testimony to the o-cult science behind it for it is obvious in every walk of life, infecting all cultures, r-ces and social status. These rel-gions were they of true virtue would be ripe with fruits of Humans living in peaceful, bountiful and loving coexistence with others whether in agreement with them or not. But these patriarchal reli-ions have 'won'' more converts by the sword and bl-od throughout HuMan history than all d-seases together, and this is not the work of the Mother in any way but a direct result of what it means to remove the Mother from the consciousness

of HuManity. Poverty and starvation are the result of lack of love of the Mother by the violent male. In all countries where the Mother is denied, there is untold suffering, pain and starvation.

'This is anathema to me, that this virulent patriarchal coercion exists, rather than by love of embracing all of Life and all I have created.

'The dark priestly religions have been one of the most violent and bloody travesties on the planet. The all male churches foster pedophilia.

And the most dominating cultures, the dark male in their depravity still have legal 'honor killings' of women, and practice child marriage of men marrying little girls as young as 6 years of age. This creates and fosters deep psychological damage to the following generations, and so their agenda continues for a psychologically and demoralized HuManity.

'No man of Light seeks to demean the Mother or her children in any way...but he honors, loves and respects her and supports all her attributes and lives to instill their sanctity.

'No priest is needed for HuManity. The Mother was here all the time and provided much Beauty, Bounty and Abundance for all.

'They have a plan, and it has been long winded, thorough, nothing overlooked, no detail untended.

'One destroys Humanity not by killing them, but by taking their Mother away....taking them away from Her All Knowing Consciousness within which they lived along with all the other beings, their relations, within her Creational Mythos inside of her, which was expressed in an extremely diverse physicality. Remove the Mother and you have only the flesh that is controlled, no consciousness, no heart and no true intelligence within which to operate, being now a creature of the 4% physical reality into which they are locked down. Only within the consciousness of the Mother does one richly experience their capacity and potentials as a fully illuminated Humane Being. When She is removed the Human falls into a lower consciousness that is fearful to even animals, all of whom fear Humans now.

The dear Humans have been torn from their Mother, she was demonized by the demons, and was replaced by a wrathful, patriarchal father of all destruction, creator of technologies of death, who knows no limits. My oceans are dying, my air is being sprayed over the entire body, and the lands are being exploded by madmen in all countries, the world over....such a thing could never be done by men who love their Mother. Yet it is done by those who claim to be God loving men....they know nothing of love nor of God.

'The Mother is physically and in all ways connected to us and we to Her, we cannot as long as we live and breath be separated from Her, but consciously we can live as sub animals without her as is seen in the world today. Anyone who lacks love of the Mother cannot have consciousness as a fully intact Humane Being...no one. No amount of intellect of the brain can make up for the 96% of the material realms she graces, nor can it touch this magnitude of the life I offer. So you can begin to see how without the Mother one is unconscious. Unconscious HuManity is the direct result of this removal of the Mother from your mythology.

'Further, lies many lies have been indoctrinated into you. But I will only say, You were born out of a divine impulse, a creational miracle, designed to bring Life and Joy to all. Sin is not of my making nor yours. You have had tremendous interference.

'The emerging of the Ascension is to bring us back into wholeness with Mother in such a way that the Fall of HuMan by the dark patriarchy shall never happen again.

'The Great Separation of the Mother from all Creation was a nefarious intention based on great fear and nothing born of Prime Creator. The separation was almost complete, except that the most visceral and primal of emotions, the deepest cry of the Life Force itself, is screaming for the Mother now.

'The separation of all my creations was not only done to the consciousness of Humanity, but to all my plant Kingdoms and Animal Kingdoms and earthly gifts as well. This is seen by how the healing plants are mostly extorted from native

indigenous peoples, by pharmacologists who find my medicines from nature, isolate certain chemical aspects of them, then sell them as a propriety blend saying they are improved by this isolation of the ''effective'' components of the whole, when in fact the whole was the medicine and not just the isolated components which worked holistically and perfectly.

This they have done with the consciousness of HuManity also with almost surgical precision, removing the Mother from Creational Myths and stories, destroying all her temples and relics from all re-igions, keeping her from all positions of leadership, and by claiming leaders, authorities, and rel-gious idols as a strictly paternal domain, with the female as being only a supportive agent because they could not completely dismiss her very obvious existence.

In no way does plant medicine work better by removing them from their growing places, chemically distorting them, isolating certain components, throwing away the parts, and calling this ''Natures remedies''.....this is a lie and a fallacy and is in truth a way of further instilling into the HuMan paradigm yet more separation of me by this process, producing psychosis when such altered things are consumed.
