May 3, 2011.

I don't know if this is really the Val that I've been dealing with in the past but it's at least from an entity called Val Thor.

.....
.....

Fifteen Year Prediction Record
And Current Predictions for 2011
Of Cmdr Val Thor

Based on the prediction record of one hundred percent accuracy over the past fifteen years since I've been on the Internet for Cmdr Val Thor's writings I am asking all that read us re-post this as far as you can as it could change the history of the world.

Val has said repeatedly that if we can lift the collective consciousness to fifty-one percent positivity we can eliminate the negative prophesies regardless of who made them or what book they came out of. This percentage is at this time rising again, let's push it over the top. Together, we can do it!

Prophecy is contingent upon conditions staying the same as when the prophecy is made. Our s-riptide proof of this is the book of Jonah which Val had repeatedly said should be studied rather than the book of R-velation at this time.

Jonah's prophecy was true but G-d changed the future when Ninevah repented. The Prophet's words were true when he told Hezekiah he would d-e but when Hezekiah p-ayed the prophet was led to turn around at the gate and go back and tell him he had fifteen more years to live. Prophecy, B-ble or any other by any other means can be changed!

If enough stop passing this negative pr-paganda that continues to lower the collective consciousness and begin to pass positive predictions of the future of planet earth we can change the world for the better.

Cmdr Val has made several statements recently of earth shaking consequence. These are our predictions for 2011. I stand by Val right or wrong and I hope we continue with our perfect record for the sake of the world. Like Val said the other night, if we miss some of these the world won't be around to accuse us of making a mistake.

(1) The pole shift will continue successfully with no dire effects on the surface of this planet.

(2) Any danger of solar storms destroying life on the planet during the planetary shift has been taken care of and measures are now in place to protect the planet by the fleets under his command.

(3) There is no violent activity of the San Madrid or San Andreas fault lines expected in the near future though there will be minor quakes in other locations as the pressure is c-anneled off the major quake lines by technology now in place.

(4) Though we did predict the last crash of the stock market Val sees nothing of danger in the near future and the economy of the world will be stabilizing and gaining a bit of stability as we proceed into the year.

(5) Though there will always be some unrest and w-rring in the middle east as there has always been we see no world holocaust in the making. There will be wa-s there until there is one A-ab and one J-w left to fight

Val Thor.

it out and may the best man win.

Patti Jeanne Spencer
(Valana Terese Thor)
Writing for:
Supreme Commander Val Thor
Universal Protection Fleets
Altair Division

Note: Though Val has turned the fleets over to our son at this time so he can give his full attention to our writings for publication he will still officially speak for the fleets due to our reputation of one hundred percent accuracy in world predictions for the past fifteen years under my birth name, Patti Jeanne Spencer.

Please leave my name on all our writings and leave his name as Cmdr Val Thor per his request. We have the perfect record in these names and therefore they cannot be changed. Patti Jeanne aka Valana Terese Thor for Cmdr. Val Thor.
