Subject: Official G-vernment Disclosure Has Begun  
Date: Fri, 6 May 2011

According to insiders, official 'go-ernment' Disclosure is now underway -- and the real story behind the alleged Bin Laden incident was shockingly different than what I expected to hear. The overall news is extremely positive, though we may have to endure further disruptive events to get there.

WE LIKE IT WHEN THE MAGIC WORKS

In the last week of March, insiders from two different groups -- the European R-thschild faction and others affiliated with the O-ama administration -- independently told me that major new developments towards a formal, official "gov-rnment" Disclosure were imminent. I was not told exactly what these developments would be -- only that it would be a significant step forward. Of course, if an official announcement does finally happen, it will be the most significant event in recorded human history. This obviously makes it a fantastic opportunity to explore -- both as a journalist as well as a s-iritual seeker. No one can be sure of the scope or the magnitude of changes Disclosure will create, but it is undoubtedly vast -- and ultimately very positive, paving the way for the "Golden A-e" predicted in almost every re-igious and sp-iritual tradition in recorded history.

"MAJOR NEW DEVELOPMENTS"

Every source I work with must prove their bona-fides on an ongoing basis. If I catch them lying, trying to use me to pass di-information, or working a hidden agenda, I break off the contact. I only work with people who really want the best for humanity -- and are willing to pass along material that will help. Both groups gave me the same approximate time window for when we would see these "major new developments." Administration sources said "two weeks" and the European sources said "within a month" -- all in the last week of March. I was strongly advised not to say anything -- and I stayed quiet, knowing that I could ruin the whole process if I leaked any of the details. The F-I released stunning new UFO documents almost exactly two weeks later. The N-A released nearly twice as many UFO documents a mere ten days after that. All of this happened "within a month" of when I had these conversations -- just as I had been told. Both sources later confirmed these document releases did indeed represent the first stage of what they were talking about -- a formal, open, official 'governme-t' Disclosure, approved at the very highest levels of the insider world.

YOU CAN'T GET A LITTLE BIT PREGNANT

The -BI documents appeared on April 11th, 2011 -- right as I was in the "middle of nowhere," on my first real vacation in years -- after bringing my San Francisco Convergence to a satisfying conclusion. The cell-phone wireless Internet was so bad that dialup would have been a G-dsend. The trees were happy enough, but now more than ever I needed ACCESS! I waited hours for these documents to download -- literally. 27 different items appeared when I used the search function to look for "flying saucers" --

and I still haven't had time to go through most of them:

The Guy Hottel document really stood out the most -- not just in my own eyes, but in those of the world's media as well

#### THE PRESS JUMPS ON IT

Literally on the same day these documents were released, the press jumped right in and wrote a series of interesting articles. Here are some links for you to explore at your leisure -- if you haven't already seen them:

Again -- this is much different than a simple sighting reported by a witness,

or hearsay from an alleged insider. These articles were all written in direct response to documents that appeared, for all the world to see, right on the -BI's own website.

The F-I has not formally, explicitly said the contents of these documents are true -- but they have not openly denied anything in these documents either.

The media has only scratched the surface of what is available in these documents -- once you roll up your sleeves and get your hands dirty. I look forward to spending more time going through them myself.

#### THAT'S NOT ALL

Other Disclosure-related news stories soon followed -- apparently all as part of this coordinated effort I was told about. By showing the world that "celebrities" were meeting ETs, the "fear factor" could be further reduced.

#### THE K-NNEDY CONNECTION IS EXPOSED

You may already be aware that JFK's a-sassination occurred just ten days after he made an official request for information about UFOs.

Now, suddenly, this case is being blatantly and convincingly argued in the mainstream media.

Normally UFO developments like this are measured out in small doses, as far as the m-dia is concerned -- but this was an impressive cluster. These articles

are surprisingly rich in content and details -- far better than the standard

"puff pieces."

#### "OTHER EVENTS" OCCURRED AS WELL

My sources also told me there would be "other events" besides the document releases -- which will pave the way a variety of information to then be leaked

out in a newsworthy, "drop-by-drop" fashion that will quickly become a very enticing, fast-moving story.

Sure enough, just three days after the F-I documents came out, another significant event occurred.

Mil-tary jets were spotted following a UFO in Virginia -- which, of course, is

near the US capitol in Washington, DC.

It could very well be that this unidentified flying object was "one of ours,"

and this was all part of the plan to increase public momentum for Disclosure.

Two Virginia reports describe military jets apparently following a UFO in the early morning hours of April 14, 2011, according to testimony from the Mutual UFO Network (

"These jets seemed to be flying pretty low and I have never seen or heard them

"I looked up to see what is making all that noise, but did not see the jets."

#### AN OPEN CALL FOR CONGRESSIONAL HEARINGS

Just one week after military jets were seen following a UFO near Washington DC, Professor Bill Wickersham called for Congressional hearings to re-examine this intriguing and critical subject.

It was very surreal to watch all of this happening in real time -- just these insiders had indicated. Congressional hearings could certainly bring out a lot of information when you consider what happened in 2001 with the Disclosure Project.

Professor Wickersham's call will probably not be answered immediately, but other events may soon bring us to the tipping point.
