Subject: Lance Campbell On Coasttocoastam
11, 2011.

May

Here's something about the person who was on Coasttoam radio and while driving a truck, an alien spacecraft went along beside him.

.....
.....

*My Transformational

C-anneled Readings Are Now Recorded On CD's, Recent Updating of Revolutionary Elohim Consciousness Technologies, and Lance Campbell's Confirmation of Cosmic Higher Light Encodements are also being transferred onto the CD*

I wanted to share a very recent development with everyone, who have either experienced one of my Transformational Ch-anneled Reading sessions with me in the past, or those who are interested in experiencing one soon (as well as anyone who wants to get an another Update Cha-neling session). For the last approximately 32 years, since that 2nd physical encounter with the Elohim on board one of the Merkabah A-htar Command Federation Light Ships in 1979 (as I share quite in-dept in my book *Prepare For TheLandings Are YOUReady?!

PrepareFortheLandings.com-

I have been recording all my sessions on audio magnetic tapes.

There was, in fact, a major reason that I had never until very recently, updated or changed the way at which I was recording them. As I have shared with many of those I have done these Transformational Cha-neled Readings for, that I had [originally] been informed by our Friends Upstairs that only audio magnetic tapes could work for use in these sessions. This was partly because even though it has been touted by those here on earth who had sold us or pushed upon those of us on a civilian, public level that CD's & DVD's are supposedly so much more advanced and superior in quality than the older reel to reel tapes, VHS video and even the audio magnetic tapes,

I had spoken to several people who had mentioned to me, that from a real quality point of view, of those who had a very precise ear for music, as an example, they had stated that they really felt that the specific tones, vibrations and other subtle qualities of these earlier musical recordings were actually superior as compared to these same recordings that were transferred onto CD's and DVD's. So from a musical vibrational quality point of view, it was somewhat obvious that these (or at least some of these) more subtle vibrational-frequencies of the original recordings were somehow being lost or not transferred onto technology that was sold to us as being superior or more advanced.

But, of course, this would definitely be true if one was part of those b-ack op, covert agencies of the go-ernment, who do, in fact, have many very advanced, better quality technologies, which are literally many decades ahead of what is available to us on a public level, except they have not been using them to help uplift us all and improve the greater quality of our lives and for Mother Earth; instead they have used these technologies to attempt to control and manipulate us all.

So this was one of the factors that helped indicate the original so-called limiting factors of using certain types of available recording technologies, besides what our Friends Upstairs had explained to me, about the important need to being able to not only record the conscious information that was being Direct Voice Chann-led thru me during these sessions from L-rd As-tar and the other various Higher Beings. But also these much more subtle, but powerful vibrational-Frequency Higher Light Encodements/positive Cosmic Subliminals (which are also very unique to each Light Worker experiencing these wonderfully Transformational sessions) that were always able to be Cosmically Downloaded thru me onto the magnetic tape, from the Merkabah Federation Light Ship that is hovering overhead on the Higher Dimensions while the session is occurring.

In fact, the importance of making sure that this whole unique process was

totally complete and not even slightly lessened was always of extreme importance to me and our Friends Upstairs, to make sure that the MAXIMUM FULL POTENTIAL was indeed able to be FULLY Cosmically Downloaded. Another way of explaining it was that these Encodements had to be harmonically interfaced and in-sync to be able to be placed onto the audio magnetic tapes by the Elohim M-sters with their Consciousness Technologies. These Encodements are designed depending, proportionally, of course, on how much each Light Worker is willing to rise to the occasion (as in G-d helps those who help themselves) and with one's best intentions, to fulfill one's individual mission for being here in Earth embodiment of opening up the neuro-pathways and synaptic centers of the brain, along with activating and restoring the original full 12 strands of DNA each time it is played back, and this also helps to manifest the new 24 strand DNA as well. And I have heard numerous personal stories/testimonies of these many Transformations that my different clients have reported back to me have been experiencing.

But besides these ultimate aspects of the sessions, one of the many common experiences and affects that everyone who played back the tape of the sessions, was the fact that each time one would play back their tape, that even after dozens of times of playing back the tapes they all claimed that they would literally hear things that were not on the tape when they first played the tape back, and that each additional playback, more things kept showing up on the tape that they had not heard the other times they had played the tape back. And my curiosity and concern was, that if I ever did change the format or way at which I was to record these sessions, would not only this most important aspect, of being able to allow these same, exact affects, of these Higher Light Encodements still come through while it was played back, and would one also still hear more each time, with additional information being heard when they played it back?

But then, very recently, during the Jan. 19th interview on George Noory's Coast to Coast AM show (you can listen to this three hour interview by going to ChannelFortheMasters.com, and clicking on the image of the show, with George Noory and Aurora Light and myself, with the front cover of our book), which I only very briefly mentioned during the show. I had just been informed by Ash-ar right before the show that he and all of our Friends Upstairs were very excited because of some kind of extremely new Revolutionary Elohim Consciousness Technology had just come on Line that they had never had before. I really did not know just exactly HOW extremely more advanced this particular Consciousness Technology (as compared to what they had had before) was until a little later, and since the show, I learned a lot more about what this new type of Elohim Consciousness Technology is now capable of doing.

Also, since the C. to C. show, the intensity and strength of the Cosmic Energies that I always experience while during these sessions have also stepped up or increased considerably. So much so, that a few years ago, I would barely have been able to handle the intensity of these Cosmic Frequencies because of how concentrated they now have become, when they place the Energy Beam from the ship over me, moments before the beginning of the sessions, as they are preparing to Cosmically Download these Higher Light Encodements along with this new change in how I Am now able to record these sessions.

Just one example of what the Elohim are now capable of doing and influencing, is instead of it taking ages and lifetimes for most of the laggards or s-uls who had been stuck on the Wheel of Karma to even be able to Graduate and eliminate all of the necessary or required negative karma, now literally it will only take most of them anywhere between just a few months to a few years of Earth time to do this, because of these Sacred Divine Cosmic Affects of the use of this special technology.

Then, a few weeks ago, Asht-r informed me that as one of the many benefits of this newer Consciousness Technologies (which has also coincided with many people also asking me if I could now record my sessions onto a CD verses the older method of using an audio magnetic tape) I could, in fact do this, that those very important after affects already referred to would, in fact, pass through now also in digital format and/or onto the CD.

Then, on April 13th, Lance Campbell, the trucker (who had received that powerful Cosmic Kosher Stamp of Approval from his own space contacts, of the huge Merkabah Light Ship physically moving up and down in a strong YES Confirmation about the Authenticity of my book * Prepare For The Landings!* and my own work & mission), was guided to also experience one of my personal Transformational Channelled Readings.

Here, almost word for word, as quoted from the phone message he left for me, was the very wonderful and uplifting message/testimonial he left for me to share what he thought:

Hi, Michael, this is Lance Campbell calling from Salt Lake. Hey, I wanted to touch base back with you; I'm sorry it took so long, but I wanted to let you know I received the CD, and the clarity was wonderful, and you were right the more I listen to it, the more information I get from it. I have probably listened to it more than 20 times already. As I said, the more I listen to it the more information I get, the more things are happening. But I just wanted to let you know that it sounds great, and the clarity is wonderful. But anyway, I just wanted to touch base back with you, because I told you I would let you know what I thought of it, as I have had time to listen to it. Anyway, it sounds like it is going to work out great because you're really doing your job well. There's more going on since my Cha-neling session with you. I'm seeing different type of ships now, too. There's a lot more going on, and things are starting to happen for me.

Other things, too, I'll have to share with you soon about that as well, sometime, when I can. Anyway, thanks again for the Ch-nneling, and I'll talk to you soon.*

* *

By the way, when I was informed about this new recording format technology update, I asked As-tar to specifically connect me with someone who was used to using the specific type of electronic equipment that I needed to now use, and of course since I have been on my extended Book Signing & Workshop tour these recent months, I needed to have something as small as possible that I could now use that was very extremely compact, which could digitally record all my sessions, and then they could be transferred onto my small laptop computer, and then be transferred onto a CD (with Mp3 format).

Part 1.
