Subject: The David I. Newsletter. Part 3 of 3.  
May 17, 2011.

Please let it be know that like some of the people that he talks about. I have served in the military in the US Navy Reserve on active duty, in the past.

Who was all over the TV networks after the blatantly-staged 'underpants bombing' to sell full body radiation scanners made by a corporation that his company represents? Michael C-ertoff (R-thschild Z-onist), former head of Hom-land Sec-rity, co-author of the freedom-destroying Pat-iot Act, and son of a Mo-sad agent.

Within days of the Bin Laden fakery, the despicable Senator Charles S-humer (Ro-hschild Zi-nist), with decades of service to the C-bal, called for a 'no-ride list' for Amtrak trains on the basis of 'intelligence' not made public (because it doesn't exist) that was 'found' at the 'Bin Laden compound'.

Sc-umer said he would press for still more funding for rail secur-ty, commuter and passenger train track inspections and more monitoring of stations nationwide. A massive expansion of the Poli-e State in other words.

2.) The Bin Laden hoax will be used to win support for the w-rs in which the U-ited States is already engaged and for others that it is planning to start - the 'Go U-A!' mentality that would move John Wayne to tears of joy.

Former Vice-Pre-ident Dick C-eney used the Bin Laden 'k-lling' to call for the reinstatement of torture methods as a means of interrogation because he suggested that such methods helped to establish the whereabouts of Bin Laden. First of all, they didn't because he wasn't there, and second, the methods of torture have never stopped being used because these sick minds are a law unto themselves (but not the law of cause and effect - 'karma', as they will see).

3.) Bin Laden's fake d-ath is being used to further demonise Pakistan by claiming that they must have known that Bin Laden was living for years in the 'compound' (when he wasn't). O-ama was immediately dispatched to the Teleprompter to condemn Pakistan and say they must answer the question of why they didn't know where he, er, wasn't.

This is former B-y B-sh speechwriter, David Fr-m (Roth-child Zi-nist) who coined the phrase the 'Axis of E-il' referring to Iraq, Iran and North Korea.

He prostitutes for the Neoconservatives, or 'Neocons', that ran the Bu-h administration and when this guy calls for something it is part of the ongoing agenda, end of story.

This week he called, yes, yes, for Pakistan to be targeted in the wake of the Bin Laden fairy tale. He said: 'Instead, even now - even now! - we're told that Pakistan is just too important to permit the U.S. to act on its stated doctrine - articulated by George W. B-sh's administration and not repudiated by Ob-ma's: 'Those who harbor ter-orists will be treated as ter-orists themselves.' So long as we remain in Afghanistan, that statement remains true. The question is, shouldn't we be taking now the steps to render the statement less true?

The less committed we are to Afghanistan, the more independent we are of Pakistan. The more independent we are of Pakistan, the more leverage we have over Pakistan. The more leverage we have over Pakistan, the more

clout we have to shut down Pakistan's long, vicious, and now not credibly deniable state support for terror-sm.'

Here we go.

Here is the map that will be familiar now to readers of the newsletter over the last few months. It is the Ca-al wish-list with the 'Am-rican' mil-tary, in league with Israel, Britain and other European countries, seeking to pick off country after country in turn leading to the borders with China and Russia to trigger World Wa- III.

Go-ernment insider Steve Piecz-nik specifically said on the Alex Jones Show this week that a Third World -ar involving China was not the plan. Absolute nonsense, yes it is. I am not saying they will necessarily pull it off - it can

be stopped if enough people wake up - but that has been the plan since at least the 19th century and we are seeing the pieces moved into place every day.

I have been saying this for years and we have now reached the point where the Chinese gov-rnment issued a statement this week warning the Un-ted States that, in short, if you mess with Pakistan you mess with us. China also

warned the Uni-ed States and company against any 'intervention' in Syria, another 'peoples rev-lution' engineered by agents of the US, Britain and Israel.

The Pakistan gover-ment made it clear this week that it welcomed Chinese involvement in the country and the leadership in Afghanistan has indicated the

same. There is the ever-gathering influence of the Chinese wing of the Gl-bal

Ca-al through the African continent alongside the agenda of the Amer-can wing, known as African Command, or AFRICOM, established in 2007 by the Bus-administration. There is so much potential for an engineered conflict to break out.

Remember, too, that China basically owns Am-rica because of all the debt it holds and that Chinese society with all its control and restrictions of speech, movement and access to information is the blueprint that the bl-odline family network seeks to impose in its glo-al state.

So insider or not, Steve Piec-enik, either does not know what the real game is

or he's not prepared to share it with the listeners of the Alex Jones Show - merely to throw in red herrings like 'it's the civilian pres-dents that are the problem'. Bullsh-t. They are the pawns of the people behind the scenes - some

of which Piecz-nik has worked with over decades.

The Keystone Cops way the Wh-te House has tried to sell the Bin Laden l-e has been hilarious, but the implications of the li- being widely believed are not so funny.

They emphasise the 'wacky' to give the impression that it was just a bunch of id-ots doing silly things that went nowhere to hide this common modus operandi of circulating fake videos meant to look like real footage.
