This mentions the El's. I have met Joseph Cater and he claimed to be the chief elder of the El's.

The leader e-ite of

the Reptilians are the 'Draco'. They even have special 'wings', which are flaps of skin, supported by long ribs. These can be folded back against the body. They are also known as the "Dragon R-ce" and their symbology usually includes the Winged Serpent. Also known as the Mothmen. There are elements of their species which do not have wings -- the "soldier class" of the species and 'scientists.

DRACO-BORGS

Cybernetic forms controlled by reptilian entities.

These would also include those forms which are animated by fallen supernatural or parapsychical entities, whether of 'gray,' 'human-like', 'mechanical' or other configuration. There are some who suggest that human-appearing 'infiltrators' of this type may exist in our society, and that certain characteristics might give them away--i.e. the eyes, a slightly sulfurous smell, unrefined features such as no fingerprints or ears or other 'body' parts which seem to have a slight 'artificial' appearance.

DRAGONWORMS

These creatures are largely subterranean and have been reported on very rare occasions.

Although a mutation of the serpent race which lost the use of it's limbs through centuries of atrophication, it is nevertheless apparently a part of the reptilian 'co-spiracy'. The 'Dragonworms' are reportedly very intelligent, according to certain sources. 'They' have sometimes been described as appearing similar to a giant reptilian 'worm' or 'slug'.

DROPAS

Humanoid type.

Average height 3-4 foot. Crashed on the Sino-Tibetan Border in 10,000 B.C.

Tribe of this culture still exists today.

DWARFS

Diminutive humans who have allegedly been encountered in or near caverns in various parts of the world, including northern California and the south-eastern Arizona / south-western New Mexico region and in some in connection to UFO's, although most reported 'dwarf' sightings in connection to UFO's are actually sightings of the saurian 'greys'. These should not be confused with the small 'elementals' or 'nature spirits' which some believe are ethereal in nature yet have the ability to appear in solid or semi-solid form at times.

The Dwarf -aces are allegedly just as human as surface peoples but average between 3 to 4 ft. in height, although at times they have been seen as small as two feet. As with the 'giants' or 'Els' this diminutivity may have resulted in a genetic anomaly which ran it's course due to the separation of their race(s) from the International 'gene pool'. They allegedly live in subterranean systems to a large extent as a 'protective' measure. And as we've said, some allegedly possess 'aerial disk' technology and interplanetary travel capabilities.

This is the oldest group of aliens in the universe that we know of. They are the ones that are at war with the Orions, which are the ones that manipulate the Greys.

The Elohim are said to be the same as the ANNUNAKIS

El Anakims, based on the mythed 'EL-der Ra-e, tied-in with the ancient He-rew traditions, Evadamic heritage, having a very tall stature. Nephis or Nephli. Also known as the Titans. Not to be confused with the Elohim.

El (Could be 'el-te') May be from the Orion group with an outpost base inside the Planet Mars.

Some prophesize that there will come a time of a great battle between the Els and the Serpent Ra-e and use Reve-ations for the reference.

Book of Enoch from the Dead Sea scrolls says how these men married Earth women, who bore 'giants 3000 cubits high'. (Note, a cubit is 1 Sacred J-wish inch, so 3000 cubits would be about 250 feet.). These people may have helped build the pyramids. The Men of Renown - the red and blonde haired A-yan giants of that epoch are dug up today all over the world, including the U-ited States. Red and fawn -haired mummies - 8-11 feet tall. But the words for red and the red haired race have found their way into biblical names - all of the following denote the Rac- that formerly ran the 'Garden of Eden' Adamites Scythians, Phoenecians - from the root phoinos or b-ood red. The Garden of Eden in Greek literature - the Garden of the Hesperides and as Dionysius Periestis once said '... in the Hesperides whence tin comes dwell the sons of noble iberes' - tin comes from south UK at Cornwall. The garden was known as the Fortunatae Insularae, the fortunate isles of Britannides, or Ultima Thule - the farthest land. More information in

EVA-BORGS

Cybernetic forms controlled by 'human' entities. OR humans who have been implanted or surgically altered to such an extent that they have become cybernetic in nature, yet still retaining a soul-matrix.
