I don't always resonate with all of Sheldon, but some of his stuff appears valid. Use your discernment, as always.

Dratzo!

We return! The process to dethrone the last dark c-bal forges ahead! We are watching carefully as the final details are being completed. The dark-oriented regimes on your world are still cooperating with our Earth allies, but we expect shenanigans and are not taking our eyes off them for one second! The purpose behind these transfers of power is to promote the rise of truly responsible and transparent gov-ernance, not to allow the dark's old, autocratic and non-responsive ways to continue. A great deal of legal maneuvering and special international use of common-law traditions were required to achieve these lofty objectives. Now we are seeing the actual transference of power from the Anunnaki's former minions back to the people, reversing the trends encouraged by the Anunnaki since the destruction of humanity's first Golden A-e some 11,000 years ago. At that time the Anunnaki set up a system of on-planet minions, which they refined over the ages. This system was only somewhat opened up to the Light by the advent of the American R-volution in the 18th century.

St. Germaine took advantage of this opening by adding the term "the pursuit of happiness" to the American Declaration of Independence. This phrase enabled St. Germaine later to add the Bill of Rights to the U.S. Constitution. Am-rica was thus put on the right footing from her inception. This is just one small example of what has been done to set the stage for the document that was signed recently by a majority of your world's nations. This set of documents kicks off what is about to follow. Our intention is to fully support the program mandated by the Ascended M-sters. It is a complex agenda in which the transitional gove-nments are only the first formal step toward setting up your star-nation's galactic society. The Ascended Mast-rs view your metamorphosis into Galactic Humans as their primary task. You are on a sac-ed journey that H-aven desires you to complete shortly, and to this end a unique scenario has been set in motion that is almost done and that is to reverse what happened in Atlantis nearly 13,000 years ago.

Blessings! We are the Ascended Mast-rs! We come to inform you that a great revoluti-n in consciousness is spreading across your world. The events you are witnessing in the Middle East are part of a much wider revolt against the dark. Everywhere, little incidents are occurring that challenge the dark's omnipotence, which, while not reported as widely, are truly as significant as the more open signs of defiance against the dark's power that you see daily erupting and strengthening in the Middle East. We are all proud of you! These acts of defiance are an open invitation for intervention by He-ven and by your galactic and Inner Earth cousins, and the actions being taken on your behalf are now largely due to your demonstrable commitment to freedom. When the papers signed by many pro-BRIC nations in the last few weeks are fully executed you can achieve your unalienable right to this freedom! We have drawn up, with Hea-en's help, an agenda that fulfills this desire for freedom and personal sovereignty.

We are, right now, supervising the process of go-ernmental

transformation. This involves more than a return to constitutional govern-ance and high transparency between gove-nment and citizens. It concerns a huge consciousness shift. This implies that a different form of go-ernance transcending current models is ultimately required. This is another reason for the need for large amounts of constructive interaction between all of us. We have worked diligently to keep the Light flowing, and this process has reached a point where Heav-n's formal dispensation for us to change the very nature of your reality kicks in. This allows a group of us to work with our sac-ed organizations toward redefining your gov-rnance more along the lines of galactic society, specifically the one practiced in Lemuria. In this we are being assisted by a special group from Agartha. This working-group has come up with a prototype called "conscious gover-ance," and we would now like to describe it to you in greater detail.

Conscious go-ernance takes galactic society as its working model. For this concept to work, four assumptions are made: first, a global consciousness shift is underway which H-aven is accelerating daily; second, the beginning of a mass first contact with you is happening and disclosure is imminent; third, people have lost all confidence in the ability of present gov-rnance to solve the world's problems; which leads to the fourth, namely, a new form of gov-rnance is now required. With the assistance of the Lemurian Grand Council, we have come up with a two-part proposal. Part one is simply to stretch the concept of participatory gov-rnance to its natural limits: gover-ment needs to address honestly the problems facing its citizenry by convening public forums that examine problems with the express goal of resolving them creatively. The key to this process lies in your growing ability to trust your intuitive self. Another key is the creative application of "fluid group dynamics."

The practice of fluid group dynamics is founded on the ability to trust in the collective use of intuition to reduce difficulties to manageable proportions. At this point resolutions can be pointed to by those whose talents and expertise are best suited to the matter in hand. Thereafter, sensible and level-headed discussion can iron out any further wrinkles. The second part of conscious governan-e requires some degree of direction from us while you gain some hands-on experience of the process. Then, any unforeseen kinks in the system can be smoothed out. This second aspect of the process relies on a harmonious, free-flow interaction between the Agarthans and you, and our contribution throughout this process is to emphasize your natural sovereignty and your unalienable rights, and provide the sacr-d means for your return to full consciousness. We are the Ascended Mas-ers!

The Galactic Federation is presently coordinating the formal setting-up of a type of galactic go-ernance globally and has broached this subject with several high-level committees of our Earth allies. The initial plan is to introduce this concept once the mass landings are over. Until then, like the Ascended Mas-ers, we wish to explain to you very briefly what we have in mind. As you rise in consciousness, the present ways in which your societies are organized may seem less satisfactory to you, which is why new approaches and methods are being actively investigated by you. Our intent here is to use your growing awareness levels as a resource for suggesting new systems of organization. Our aim is only to suggest how two simple stages can be used to begin your own particular version of galactic society.

Today, we, together with the Ascended Ma-ters, have begun to delineate the concept of conscious governa-ce. We wanted to give you a foretaste and to gauge your reaction. This concept is one of many we wish to share with you. We look forward to being more specific once we can introduce ourselves to you in person. Know, dear Ones, that the countless Supply and never-ending Prosperity of He-ven are indeed Yours! So Be It! Selamat Gajun! Selamat Ja! (Sirian for Be One! and Be in Joy!)
