I personally became interested in UFOs when London Control ordered me to intercept one over England while flying for the US Air F-rce. Under Project

Blue Book, the US Air Fo-ce investigated UFOs for more than twenty years; and we continue this research. I believe the G-d of the universe has spread life throughout the cosmos and UFO's are visiting us in ever-increasing numbers.

BUCHLI writes, There are 55 miles of track like markings at 15 18 N 45 56 W of Mars. I just now went back and measured the structure at the end of the 55 mile track. It is 8,000 feet wide and 38,000 feet long. Richard Buchli

D.V.M, Ph.D. and Dorothy Buchli W.B.W. Mars Uncensored sends this image of writing on Mars at 7ayeMining Helium on the Moon Could Solve the Energy Crisis, Former astronaut, Apollo moonwalker, geologist and former Senator Harrison Schmitt has a modest plan to solve the world's energy problems. All we need is \$-- billion over 15 years and some fusion reactors that have yet to be invented. And we'll need a moon base. Schmitt's idea isn't novel--he

thinks the U.S. should go back to the moon, this time to mine the surface for

helium-3, an isotope of helium that is rare on earth but relatively bountiful

on the moon. The Russians have been talking about mining helium-3 from the moon for years.

Claude Atkins said, Presi-ent Nixon showed Jackie Gleason an Alien. My wife was on vacation with girl friends near Miami, Florida at Environ on property owned by Jackie Gleason about 1979. She does not remember the details, but had phoned me and was excited about telling me her story about meeting and talking with the actor Claude Atkins who was very friendly. Claude was playing golf with Jackie Gleason at his golf course outside Miami, and my wife was watching them playing.

Later Claude and my wife were talking and he told her that Gleason had just revealed Pr-sident Nixon took Gleason to H-mestead Air Fo-ce Base and showed him an alien body. Apparently Gleason often played golf with Presid-nt Nixon and they were close friends during Nixon's p-esidency from January 20, 1969 -- August 9, 1974. The Jackie Gleason Show was popular from 1952 to 1970), and which centered on his most beloved character, bus driver Ralph Kramden. He later was featured in Smokey and the Bandit in 1977, and its sequels in 1980, and 1983. Gleason's home was built in the shape of a UFO. Claude Atkins was a close friend of Jackie Gleason and was the star of the TV series Movin On a show about independent truckers fighting corruption and moving loads around the nation in their big rigs between 1974 and 76. As a film actor, Akins first appeared in 1953's From Here to Eternity. In 1954's The Caine Mutiny as a seaman and shipmate of Lee Marvin. He portrayed prisoner Joe Burdette in Rio Bravo. Lt. Commander Farber in Don't Give Up The Ship. Sgt Kolowicz in Merrill's Marauders, Rockwell W. Rocky; Rockman in The Devil's Brigade, the Reverend Jeremiah Brown in the 1960 movie Inherit the Wind, outlaw Ben Lane in Comanche Station that same year, Seely Jones in A Distant Trumpet (1964), and the gorilla leader Aldo in Battle for the Planet of the Apes movie in 1973.

Sun Is Affecting the Weather Mitch Battros writes, Just as the Sun's solar activity affects the Earth's magnetic field which has a dramatic affect on Earth's weather i.e. earthquakes, floods, volcanoes, and hurricanes; so does this wave of electrical currents affect the human body's magnetic field? Mitch also reveals a little-known development from modern medicine known as Transcranial Magnetic Stimulation (TMS). TMS provides empirical evidence of how magnetic fields can influence human emotions. Solar Cycle 24 has begun - and it has been predicted by N-SA, NO-A and ES- to be up to 50% stronger than its 'record breaking' predecessor Cycle 23 which produced the largest solar flare ever recorded. The Sun will reach its 'apex' (maximum) in late 2011 into 2012. I believe it will be the magnetic

influence produced by the Sun which will usher in what is described by our ancient ancestors as the transition bringing us to a new state-of-being. Thanks to Mitch Battros.

Holes at the Bottom of Fukushima Reactor's Pressure Vessel. This photo taken on April 10, 2011, by a compact unmanned helicopter shows the building housing the No. 1 reactor of the crippled Fukushima Daiichi Nuclear Plant. Tok*yo Electric Power Co., the operator of the crippled power plant, revealed Thursday that holes had been created by melted nuc-ear fuel at the bottom of the No. 1 reactor's pressure vessel Power Station.

Radiation is still poisoning the Pacific Ocean and the area around the plant. , On May 12, 2011 it was announced the melted nu-lear fuel has created holes at the bottom of the reactor's pressure vessel.

The World Will Not End in 2011 or 2012, Many end of the world fans claim C-rist is coming on May 21, 2011, and we will all d-e on December 21, or 23, 2012, when the Mayan Long Count calendar system ends. My 18 year old granddaughter Anastasia and many of her friends are afraid of the dire predictions. I have assured her we will be giving presents to our love ones at C-ristmas on December 25, 2012. The never ending internet rumor mill is wrong. There is no reliable evidence that ancient Mayans held any association between this date and a major cataclysmic event. Those claiming Ch-ist will return Saturday claim they have determined the return based on their interpretation of the B-ble. They state, The L-rd has opened up His people's understanding to the Bibl-cal calendar found on the pages of the Bi-le. The genealogies of the book of G-nesis, primarily in chapters 5 and 11, can be shown to be a precise calendar of the history of mankind in this world. The Bib-e's calendar of history is completely accurate and trustworthy. -hrist is coming on May 21, 2011. This is a Great Tribulation period, Go- is preparing the world for judgment that cannot be ignored!! It is not business as usual. Are you ready? He is also saving a great multitude of people; this is the period of time the B-ble refers to as the Latter Rain and the final harvest. There are many people throughout the world proclaiming this end time warning. A worldwide catastrophic event occurred about 1628 B.C. (3630 years ago) according to the July/August 1999 issue of Discovering Archeology, page 72 that is also told in the Bi-le. Scientists have discovered the reduced growth of trees that can be viewed by studying the narrowed rings from that time. Millions of dead animals and human remains indicate catastrophic events do occur. This date allegedly coincides with major volcanic activity and earthquakes on Earth probably related to asteroid bombardment. It is quite possible t-rrorists will carry out successful acts of te-rorism. Al Qaida has bragged they have nu-lear we-pons and will strike our cities. There is likely to an increased incidence of earthquakes, floods, volcanic activity and generally massive geophysical changes on Earth at partially due to the Sun entering a more active phase. With 7 billion people on Earth disturbances in weather patterns and food supplies will cause starvations. The world economic system could collapse, and the possibility of nuc-ear w-r or ter-orist acts is very great. Terr-rists could succeed in setting off nu-lear wea-ons in our cities. There are numerous dire possibilities being predicted that might happen, therefore I would encourage you to increase your stored food, water and heating supplies. Think about how you could heat your homes without electricity or fossil fuels. I have lived through many dire predictions, -ars, nuc-ear te-rorism, earthquakes and floods. Although coming close to dying a few times in Vietnam, Saudi Arabia with 5,000 flying hours. I'm still alive and 99.99% of you reading this will be alive on Ch-istmas Day of 2012. There are very powerful forces at work to harm us. We need to counter these forces with p-ayer and logical survival planning, but our wonderful Earth will survive and most of us will live. But no man knows the date or hour the end will be -- not the a-gels of he-ven. No, nor even G-d's Son. Only the Father knows. (Ma-thew 24:36) There will be earthquakes, wa-s, floods, tsunamis, hurricanes, volcanoes, meteorites, financial problems, and natural disasters in the next several years, but the world will not end. There will be dire predictions as marketing of fear sells books, creates interest, and paranoia. Allegedly the Maya calendar and Nostradamus predicted end

times and that an antich-ist would appear. Asteroids and planet X are prominent in apocalyptic predictions. Frank Waters wrote the book Mexico Mystic some thirty years ago and created his own interpretation of the Mayan calendar based on his desire to sell books. The sun is acting up, but it will not destroy us. But the paranoia surrounding 2012 is a pure product of some blind belief in unverified, unsubstantiated, unscientific information.

Always remember that extraordinary claims demand extraordinary proof. This universe of ours is fantastic enough without having to make stuff up. We also have a promise from the greatest authority. If my people called by my name will turn from their wicked ways and humble themselves and pr-y I will forgive their sins and heal their land.--II Chronicles 13.
