Dear Ones, understand that the dark Ones are answerable to Universal Law exactly as you are, and like you when in duality are allowed to experience through their freewill choice. Of course they are also subject to your laws, but by the very nature of their rejection of them and the power they hold, they feel above the law. However, as you will know by now every s-oul is answerable at some stage for every action and even thought that intended to harm or cause the d-ath of another so-l. It is why we ask you to bear this in mind when the dark Ones are called to justice, and stand for their crimes against Humanity. If it is within your ability and your mindset allows for compassion, it is the best response you can have. Better still if you can acknowledge that the dark Ones are Beings of Light that retain their g-dspark, you would help them by sending Love and Light. Naturally that is not easy particularly if you have a relative or friend that has been a victim of theirs. How you respond depends on your level of consciousness, but you will eventually reach one of C-rist Consciousness and act from that level of understanding. Therefore if it needs a ◆deal◆ to remove the dark Ones and they are allowed refuge somewhere, it is only a temporary respite as ultimately they will not escape justice.

Meantime, all progresses well and our allies are pushing for the disclosure announcement. The facts have been coming out for many years now, but what we need is an official recognition of our presence so that we can introduce the Galactic Federation to you. There are numerous websites on your Internet where you can indulge yourselves in facts about our craft, and these are supported by photographs and even videos. Whether we exist is no longer the question as we have made contact with every major go-ernment. We want to open up the whole subject, and thus allow debate and discussion as to what has been taking place over the last century. Gov-rnments will have to come clean with regard to their own part in suppressing information about us. They will also have to admit to their activities under the guise of allowing their craft to be taken as ours, or groups such as the Greys.

It is obvious to any intelligent person that our Mothercraft have not originated from Earth. They are in some cases of such massive size, being several miles long it is common sense that they are coming from other civilizations. There is also the question of the sheer numbers of craft that have been seen on some occasions. When you can count around a hundred or more as per the sighting recently in Mexico, you will know for certain that their origin is not from the Earth. The evidence of our presence is so obvious; yet generally speaking your media still hides the truth. We are pleased to say that this situation will not remain the same for much longer. There are many aspects before our appearance that need to come out to prepare people for it.

Remember that we are Spi-itual Beings exactly as you are, and all from the Source. We are not different just because we come from other civilizations, beyond the fact that we are more e-olved. That applies to all members of the Galactic Federation and we act out of service to you as our brothers and sisters. Everything that exists is moving back to the Source, so we join hands and help each other. You are not in anyway less than we are; it is just that you allowed your higher levels of consciousness to be veiled. It was inevitable once you slipped into the lower vibrations, and set the scene for your challenge to find your true selves again. You knew this was to be the greatest one that you would face, but also the most magnificent opportunity to evolve once again and merge with your Higher Self. You were inspired by knowing that there would always help for you, and you would not

be fighting your battles alone. Perhaps more importantly, you were aware that the cycle would end with an equal opportunity for each so-l to ascend. That time is of course now, and Ascension is just a short step away from taking place.

We are certain that once we can walk amongst you, the doubts and hesitation about accepting us will soon disappear. Your gover-ments will announce their support for us, as they too will be briefed as to the full implications as to what is to happen. Together we can make sure that the changes and cleansing of Earth are efficiently and quickly carried out. We can as far as possible safeguard the population from earthquakes or their consequences, but there will still be fatalities as some sou-s have chosen to leave Earth in this manner. Once you understand the reasons for what is occurring, the outcome will be your focus rather than the manner in which it is achieved. There are many views as to how it will be, and with our coming much will be explained to avoid misunderstanding.

You are becoming more aware of Mother Earths need to push on with her own program of changes. We also know what is needed and that gives us the opportunity to help alleviate any affects upon you. If need be we can transport people from one point to another instantaneously, and will use our technologies to carry out such missions. We know where every person is, and it does not matter where they are at any given time we can locate them. Again this is by using our highly advanced computers that you could say, have a mind of their own as you will find out. You can understand why we approach the whole issue of Ascension with full confidence, as our part in it is well within our capabilities. That even applies to equipment or the likes that will be needed for our projects, and for f-ee issue to you as part of modernizing your society to enjoy all of the benefits of fr-e energy.

I am SaLuSa form Sirius, and have given you a picture of what lies ahead so that you can feel assured of your well-being. We like you are keen to get going, although we are never idle and forever adjusting our plans to accommodate the latest situation on Earth. We can look ahead with accurate predictions and that is essential to our timing in all matters. It is not possible to inform you of them other than to generalize about them, as we have to keep our information out of the hands of the mischief-makers that would interfere. Be assured we are working hard to assist our allies to make those last inroads that will achieve our immediate goal.

We leave you with our love and blessings so that you should know you are greatly cared for held in great esteem.

Thank you SaLuSa.

Mike Qu-nsey.
