Subject: DK And David I. Part 3.  
May 26, 2911.

While starting of on the trip my number one son noticed a pickup truck that appeared to have a gold mining dredge in it. He struck up a conversation with the owner of the truck and sure enough it was a gold mining dredge. My son then asked what had happened to this person's arm because it had been bandaged up. The owner said that he had been dredging for gold in the waters of the Roague River in northern Calif. when a young mountain lion that he did see, attached him with his claws digging into his side and he bit the person on the arm. This caused the man to fall uncontrollably in the fast moving river and when he regained his footing the mountain lion was long gone. The mountain lion was, as I said before a young and but still weighed in at about 100 lbs.

He had a gun on his person but didn't get to use it on the lion because the lion sneek up on him and left the area.

My son then asked him how much gold they had found and he said in two summer season they had collected about 5 lbs of gold. Gold is measured in 10 troy oz. to the lb., so this was 50 ozs. of gold which sells for a little less that \$2,000 an oz.

This tells why the Galactic Federation has not yet interviened.

Before, the insanity that was defined as the norm has now indeed disappeared and the people come together, cooperating with one another, holding for one another the highest morals, the highest objectives to reach for.

In this new planet of raised consciousness those who had wished to experience this will indeed do so. Those who have no desire to do so will also be granted the freedom of their choice to go in the direction they wish.

There is no need to push the I-luminati through any portals, for they cannot ascend. They will go with the planet that chooses to continue its decline in the spectrum of consciousness that is aware of itself, that is aware of its s-iritual nature.

This is simply a new playground, as this Awareness called it a moment ago, a new theme park in which to have new experiences and that the s-ul from that level of its existence may think that this would be a wonderful experience to have for the very short limited time frame that the human life is in existence.

The so-l knows that every part of its being, every aspect of itself that is sent out to have an experience, whether it be an Ascended experience or an experience that is less than an ascended experience, that is a much more constricted and limited experience: all sou-s will once again eventually return home, and will again eventually return back into the sou-.

Even those of the Ascended Beings who have returned to have a negative experience at this time will return.

Even those who are short-circuiting the process by not returning back into the 5th dimension upon their d-aths, this being of course the E-ite, will eventually return back to the fabric of their -oul.

This is that parable in the B-ble that is known as the return of the Prodigal Son.

The-return-of-the-Prodigal-Son

Even those who are the worst offenders at this time, who have corrupted mankind and misled it and enslaved it for thousands, even millions of years,

will eventually return home, return back into the fabric of the s-ul, back into the presence of the D-vine, of G-d Itself, the essence and purity that is the

Go- Div-ne Being and Beingness.

This therefore suggests quite a different scenario than that which was presented by this individual in his comments. Furthermore, others may see this in a different light.

M-tthew and SaLuSa would perhaps see this differently and have expressed it differently; and of course this Awareness says that each and every individual is

free to have their own beliefs and thoughts and interpretations of how it might be.

For those who resound to that which is given by Ma-thew, for example, who resonate with the words of Matt-ew, then please of course follow those words.

Be aware that they are simply a way of thinking about these matters that fits

those who are in agreement, just as the words of this Awareness are also the words that resound and resonate with those who are in agreement with this Awareness.

But this Awareness would always add: Please ask questions, please seek other sources of information and interpretation and then come to your decision.

Questioner: (Thank you) That was most interesting and certainly will be good for Paul.

He'll understand that and the membership, if they have any questions can always write in.

#### Ascension-And-Parallel-Lives

Questioner: Again, we have one from Kathy K-vany. She asks: "What about parallel lives? Can I ascend in some of my parallel lives but not in others?" Your thoughts please?

Cosmic Awareness: Indeed this is so. The purpose of parallel lives is to experience alternative choices and paths.

Thus it is that if there is a reluctance to believe that change will ever come in one's life, that one would of course live their lives differently than a

belief that a change is coming and to live in accordance to the tenants of f-ith and belief that would govern one who has such a belief.

For example, in this matter of Ascension one can believe that changes will come of a deep and profound nature and be open to create that timeline of experience that will take one into that experience.

But equally, because there are many elements of Ascension that are very difficult for many to accept, one could also choose not to believe anything of significance will happen, and there is another part that will have an alternate experience to this.

It may still be an experience of Ascension, but it may be at a much lesser degree than the one that has so totally opened itself /herself/himself to the more expanded experience.

#### The-focused-personality

There are many, many versions of one on the many layers and levels of reality that are coexistent at the same time to the life of that which this Awareness would call the focused personality.

The focused personality is that personality that sees the line of its choices in a consistent manner, and sees that line having brought him or her to the particular point they are living in.

The focused personality by definition must stay focused on that line and on the moment it is experiencing.

Beyond the focused personality level is that element of the personality that is capable of embracing many of those alternate parallel lives as an imaginary

viewing of such lives, and in this expanded consciousness it is possible to trace out some of the parallel lives one might have experienced and lived, through the use of imagination.

However, for many this is such a complex area that it becomes troubling to them, and in a focused mind the choice is to stay within the parameters of the experience of one's life without introducing variables, such as parallel lifetimes or alternate expressions of self.

This completes this answer for now.

#### Mother-Earths-Replacement-Body

Questioner: (Thank you). Our next one comes from Jon L-cke. He writes, "I heard an interview of Duncan R-ads, editor of "Nexus magazine", by Barry Ea-on. And he gives the website, the interview program number 305. About halfway through Duncan mentioned that China sent several locked

briefcases to embassies around the world. They had time locks on them so they could only be opened on October 13. Duncan also mentioned China has found something under the Great Wall which is powerful, magical and of ET origins. Duncan does not know if it is related but there has been discovered something of ET origin in the Gulf of Mexico under the water. He says it is organic microcosms from outer space it was said to activate at a certain time. Its purpose is to terraform and mutate. Many nations have submarines in the Gulf watching this. China was invited but refused to go. It is hard to put all of this together, but I wonder if Awareness knows anything about this? Is it a good or bad for humanity? What was in the briefcases? Thank you." Your thoughts please?

<http://www.nexusmagazine.com/>

Cosmic Awareness: To begin with, this Awareness is not at liberty to disclose what is in the briefcases. As to the statements made of these cosmological systems, this is all part of that which is the formation of that new body of this Planet Earth that once the Ascension occurs will be the replacement body. This is very metaphysical in nature, and it is a much more complex matter than even what this Awareness is speaking of, for it is matter that is not matter, it is matter that is in spirit form that has not yet coalesced into physical form, nor will it do so until there is a separation of the two planets.

Two physical bodies cannot occupy the same space at the same time. In the physical rules of this physical dimension such an event would cause an explosion that would destroy both planets. But the template, if you will, is already on the planet in several spaces and places and the Chinese as well as other governments of the planet know of this. The Elite also know of this and it is one reason they are seeking to shut this down. This simply will not happen, for some of this does come from the future, where this moment in time is understood to be of great relevancy to future generations and future planets. This completes this answer.

Questioner: (Thank you) Is this also related to whatever was found under the Great Wall?

Cosmic Awareness: Indeed it is.

A-Solution-For-First-Contact

Questioner: (Thank you). Here is another one from Jon Lo-ke. "In reply to the question, 'Why has the Galactic Federation not appeared?' Awareness said that the Powers That Be could kill millions of people if the Galactic Federation showed up. But I ask, 'Why could they not put a paralyzing ray over the world that would prevent such sabotage?' I am sure that technology exists." Your comments please?

Cosmic Awareness: While such technology exists it would go against the choice of humanity itself, of each and every individual who is having a physical experience at this time, including an experience of being subservient to those Powers That Be who have such control and manipulation. The prime doctrine of the Galactic Federation is not to interfere with the free choice of human beings. Thus it is that they are seeking to install themselves bit by bit rather than in a way that would, of course, create a huge shockwave.

They have tried this, and have been threatened by the Orion/Reptilian forces. They know they cannot simply push their way, and that a level of consciousness must be reached where humanity does accept extraterrestrial presence. This level is rapidly being approached and thus the free will choice would be to experience the extraterrestrial presence. In the activities over the last two years after the claim was made for First Contact on a grand scale, the extraterrestrial Galactic Forces have been presenting themselves more and more and even showing themselves to greater populations, such as the viewing over Jerusalem, Israel, but they are still not at a point, and humanity is still not at a point where a consensus has been reached, and an understanding of the free will of choice has been made to bring forth that which is First Contact.
