Dear Folks: I have been in Boise, Idaho for the last five days. I will try to report on the trip later.

Subject: DK And David D.

May 25, 2011.

This explains a question that my personal friend, DK used a group called the Cosmic Awareness and also an explanation of why David I. hasn't been taken out of this life for what he is doing.

Strange-Plum-Island-Creatures

Questioner: (Thank you, very interesting). We have something from DK.

He writes: "Awareness has said that the entity Jesse V-ntura is a true patriot.

I was watching his show on Plum Island and they were talking about bio-weapons developed there. They also talked about mutated bodies washing up on the shore of nearby Montauk Island.

Two creatures and one humanoid creature with extremely long fingers and 5 holes drilled in his head were washed up. Can Awareness comment further on these creatures and the situation of Plum Island, thank you?

Cosmic Awareness: It is seen that Plum Island, Montauk Island, or the area in question here has indeed underground bases of the Reptilians, and that these Reptilians have indeed, been doing that which is genetic engineering as they so often have in the past, and these creatures that were washed up on the shore were part of the engineering of the genetic materials to create these unique individuals with a specific skill-set that would have been well adapted for certain tasks that the Reptilian/Orions' need of them.
This is what occurred and the discovery of these creatures was the discovery of those beings that were artificially created through genetic engineering.

Questioner: Are there more places that have this particular instance?

Cosmic Awareness: There are several other underground bases, but the base under Plum Island is the main base.
Several intersecting tunnel systems connect it to the rest of the world; this being the s-cret underground tube-system that the extraterrestrial beings use frequently.

What-Is-Keeping-David-I-ke-Alive

Questioner: (Thank you). Our next question comes from Larry K-ll. It concerns deprogramming yourself or the Parting of the Ways - we must know. He asks: "What is keeping David Ic-e alive and preventing removal of his videos from YouTube?

If the E-ite have managed to control the major media and p-esidents, YouTube should be a walk in the park! I haven't heard of any, but I wonder if Neale Donald W-lsch had any threats following the release of his first 'Conversations with G-d' book?

So many people think their concept of Go- is the only real one and it needs to be defended when any questions are asked and no amount of logic penetrates their minds.

You would think such a superior being who created the whole universe would take care of him/herself." He signs it, Larry. Any comment please?

Cosmic Awareness: There are two distinct areas of questions this Awareness will try to deal with.

The first is that issue of the entity David Ick- and the question of why it is that he has not been dealt with or taken out, or the YouTube sites he

has shut down.

To understand this fully one must indeed understand the history of this particular entity.

This entity began his rise into public domain first as that which was a European English football player; this being, of course, that sport that is in North America known as soccer.

He played for a prominent team as the goalie, but unfortunately was struck down with extreme arthritis, which caused him such pain that he could not do the job of a goalie to a sufficient level and he was dropped from the team and had to take early retirement.

He then went on to become a national sports celebrity as a sportscaster and many first met this individual on the airways when he was a sportscaster for the BBC.

This was followed later when he became interested in the ecological political party known as the Greens in England and that he became the public spokesperson for this party, because he was already a public figure and the party itself realized that it would be to their advantage to use his public status and to promote him as the spokesperson for the Green party.

Then in approximately 1990 David Icke had a personal experience of revelation and transformation. He became aware of metaphysical truths and spiritual issues.

He wrote 5 books before his more famous books were ever published, these being 5 small books about his spiritual transformation. It was at this time that the Interpreter himself met the entity David Icke.

Also at this time David Icke came out making outrageous claims and in particular on one talk show he made claims that were so ridiculous to the majority of the people that the host Terry O'Regan ridiculed him. This ridicule went on to a national level and the papers all had a field day at David Icke's expense. They so ridiculed him that the public simply dismissed him as a person of significance or relevancy.

This was what was to prove his saving grace, and was to protect him in the years that were to come. He went into a period of dormancy where no one heard of him for several years.

It was at this time that he started to do research into the secret cabal and the secret powers that exist on the planet.

It was not at this time that he spoke openly, but it was at this time he wrote his first book about the conspiracy and that which was happening behind the scenes, this being the book "The Robots' Rebellion".

It was after this point that he started to gain more and more popularity. But the Powers That Be who had destroyed his reputation previously did not realize that they would have needed to squash this individual at that

point, for they believed that nobody would take this entity seriously, having been so ridiculed and dismissed by the public.

This was their mistake and this opened the door for the entity David Icke to continue his research and to write more books of a revealing nature.

Before those in power realized the threat this man was representing to them it was already too late.

He was a well-known figure internationally, not simply in England, and to have this individual eliminated would have given his work more credence than it already was receiving.

Furthermore, the Powers That Be believed they could still control this individual, could still dismiss him and make him look ridiculous because of the material he was presenting.

However, they again misjudged this individual and the impact he was having and his reputation continued to grow to the point now that if they were to eliminate this individual it would be about the same as declaring to the world the presence of these powers and forces that are in existence.

Thus it is that they caught themselves short and they failed to act in their usual way upon this individual. Thus it is that he rose in prominence.

It must also be seen that in another way, David Icke is a Star Being and is protected as well by those elements of the Galactic Federation, as well as Spirit, for his deeper role was to be a voice in the darkness that could be heard by many that were seeking the Light of Awareness and

understanding in matters concerning the Elite and the Powers That Be.

Many are protected at these higher levels, and even though sometimes death may occur to these individuals, it will usually be one that also serves

the greater cause and was part of an individual's plan on this planet.

Does this answer the questions sufficiently regarding David Icke?

Questioner: I didn't realize he had such an interesting history!

Cosmic Awareness: Indeed most do not, for he does not play up his history.

It is more that it is there for those to discover who are interested in looking deeper into the man.

This Awareness asks for a repeat of the second part, a summation of the

second part of the question.

The-Conversations-With-G-d-Books

Questioner: The second part concerns Neale Donald Walsch and his book "Conversations with God", and he carried on to say that so many people think their concept of God is the only real one and it needs to be defended when questions are asked regarding the amount of logic, and it carries on... you would think such a superior being who created the whole universe could take care of Him/Herself.

Cosmic Awareness: First this Awareness would say of the entity Neale Donald Walsch that his writings represented for many a convenient next step from religious orthodoxy into a more liberated conceptualization of that

concept of God and God's essence or presence in the world.

This Awareness will state here that the God that this entity is connecting to

is a high spiritual aspect of himself, a spiritual aspect that is Divine in nature,

but it is not the God of the Orthodox Christian belief or the God in heaven that judges all who come His way.

It is rather a much more enlightened element of the Divine that Neale Donald Walsch has connected into and he has slightly misunderstood this.

But this Awareness does sense or feel that he is aware that the God who has spoken to him is indeed part of his divine nature.

Still the materials that he has presented over the years have been hugely beneficial to others who are seeking a much more expanded conceptualization of the Divine, who are seeking to find an awareness that would allow them to expand into greater consciousness.

The danger here, however, is that many still conceptualize God as a male persona and that others can connect with this male God but they themselves cannot.

Part 1.
