Subject: Rain On Arizona Forrest Fire.  
June 11, 2011.

Dear Folks: In the past I have asked that we have rain in Calif. to get over a drouth. Last season we go more that average rainfall and snow. This year, so far we have had 151% of normal snowfall in the Sierra, mountains.

Last night George Noory asked that the people on Coasttocoastam radio request it to rain on the forrestfires in Arizona so it will put the fires out.

I am now humble asking you to sent forth positive thought that these fires will be put and the proper things be done to prevent the fires in the future. Some forrest fires are normal but these are really getting out of hand.

Thanks,  
John Winston.

Now to the subject at hand. It might appear that I might have made mistakes in the past telling you certain information but I believe things are changing

and we are not going to have to go though some of the bad things that I mentioned. Thanks for helping me and you people to cause some of the bad things not to happen.

Thanks,  
John Winston.

Subject: Message From KRYON.  
June 11, 2011.

This comes from a being called KRYON.

.....  
.....

Great message from the KRYON  
Jan-s

LIVE KRYON C-ANNELLING  
"A Summary"

This live ch-nnelling was Given in Gaithersburg, Maryland  
April 2, 2011

To help the reader, this channelling has been revisited [by Lee and Kryon] to provide even clearer understanding. Often what happens live has implied energy within it, which carries a kind of communication that the printed page does not. So enjoy this enhanced message given in Gaithersburg, Maryland, April 2nd, 2011.

-----  
Greetings, dear ones, I am Kryon of Magnetic Service. There are those who would say it should take longer for the Human Being in the chair to assimilate that energy that would be S-irit. They say that in order to have this energy encompass his body, to have a confluence of energy that is remarkably like the Higher-Self, it takes longer. And we say to you, this is the way of it in this new energy. You're looking at it.

There's an old paradigm of linearity that says that you w-rship and you p-ay in specific times and you play in specific times. This is compartmentalizing G-d, isn't it? What if you always had that which is the Higher-Self ready to go? What if you carried it around at such a high level that it became you? Every word you spoke came right from it. Every time a Human Being looked at you, you had compassion in your eyes for them... with the one who argues with you, the one who calls you names, the authority that you don't like. How would you like to be able to look at them and first see compassion, then disarm everything else that happens emotionally? So when I sit in the chair, I have instructed my partner to become compassionate for all, and it allows me to come in instantly. And here I am.

There's a tradition that when I sit in this place [Gaithersburg], I provide a summary of what is happening on the planet. So I'm going to follow that

tradition. Some of the things that I am going to tell you and discuss with you now, I have said before, and recently on other continents. Some I have said even in this one. This becomes, however, a summary of things in a way we have not done before so you can hear them together.

We speak in love. We tell you the things that are happening from our perspective and we remind you of what they are. But in all that I am going to say to you, we emphasize this: All of the things that are happening on the planet happen slowly. You must start thinking and observing in groups of generations and not simply year to year. Dear old s-ul, use that wisdom that you have collected in the many times you've been on this planet right now in order to understand this message better. Understand that time must pass, for no other reason than for the children to come in that do not have the same consciousness as their parents. So you're looking at that which is generational, but it's happening before you.

So again, all of the things that we discuss this day are given in love. Predictions I give will be based upon that which is most apt to happen because it is the strongest potential of the synchronicity of consciousness on the planet. Consciousness is developed daily. Even though we have just spoken of something that takes a very, very long time, consciousness changes. It changes radically, since it is a reflection of Humanism. It propels things in directions that sometimes are quick and sometimes are not. So those things that I give you today may change tomorrow. But as I sit in the chair, I will give you the strongest potentials that are there. The ship may turn quickly and surprise everyone, but it still takes a very long time to get to its destination.

We speak of many subjects. But before we do, I am aware of the listener; I am aware of the reader; I am aware of the one in the chair right now. Aren't you glad you came? Can you feel the energy that pushes in this room to you and prepares you for a message that is beautiful, that congratulates you for one of the hardest things you ever did? For almost everyone in here is over 11. [Laughter]

You had a choice. At the Wind of Birth [Kryon's name for when we are about to come into the planet], we looked at you and said, "The Armageddon looms. Take a look." There was nothing when you came into this planet that gave you any hope that you would sit in a chair in 2011 and be safe. Nothing.

Your fathers and your fathers' fathers suffered the w-rs and the conquering on this continent, on other continents, and the h-tred of man to man was just as great as it always had been. There were no signs it would ever get any better. Yet you came in anyway, because there was the potential of what indeed has now taken place.

In 1987, a Harmonic Convergence literally pushed consciousness into a place you didn't expect... then, everything changed. Even before that, things were getting ready to change. But not when you were born. And so not only do I look at old so-ls in the room, but I'm also talking to many of them as they hear this with their ears later in your time and read this later in your time. I'm talking to courageous old -ouls. For the idea of a confrontation, an Armageddon, a n-clear -ar was upon you and you knew it when you agreed to come. I've reviewed this so many times. Then the Soviet Union fell over by itself. And then, and then - so many things that you didn't expect.

Gaia and the Rumors of Old

Here's where you stand today. Let us talk about Gaia first, and if we're going to talk about Gaia, we have to talk about the c-nspiracies. So we talk now about those things not necessarily believed by the old s-uls in this room, but some of those who are going to listen and going to read.

There is talk that all these changes on the planet are getting ready for something horrible, and that many have talked about it and some have even prophesied and ch-nnelled it: The earth is going to stop its rotation for three days and then start up again. Ah, some say that the earth will turn over, that the south will become the north and the north will become the south. And then there are others that say, "Even before this happens, there are going to be ships that you call from space, to come and get you. Of course, not for all of you, just some of you."

So let's discuss this, and put it away once and for all. It's time for sp-ritual responsibility. You can believe these things if you wish because maybe they were chan-elled and maybe they sounded good to you at the time. But let us talk about the reality of these things.

First prophecy: If the earth turned over, everyone's d-ad. The oceans fly off into space, all life ceases to exist, and the planet becomes a hot rock. How do you like it so far? Second prophecy: The earth stops rotating for

three days. Now, at the equator, you are travelling approximately 1,000 miles an hour. Everything stops. Again, if it suddenly stops, everything flies off into space, including the oceans and atmosphere, and all life is terminated. By the way, it doesn't matter when it starts turning again, everybody's gone. So the three-day start again is moot. How does that sound so far?

If you begin to use spir-tual discernment and use what has been told by the ancients and by recent chann-llings, do those prophecies sound like the future of Earth? Is that why you sit in these chairs or you're listening to this chann-l? Is that the love of Go- at its best? Do you really think you were born to d-e in this fashion? We say to you, it's time to feel the love of G-d.

The doctor knows something and he seldom discusses it [speaking of Dr. Todd O-okaitys in the audience]. The astronomers know something, too, and they don't discuss it. Everywhere they look in the Universe, there is a confluence of energy that is creative and benevolent. Astronomers call this attribute intelligent design. Statistically, there just had to be somebody designing all this, they say. It's too good, and against all odds, it's too remarkable. It's outside the possibility of random chance. Ask them. Check it out!

The doctor has a quantum invention and everywhere he points it, it heals. What are the odds of that? Why would it be that way? Just because it's a quantum energy doesn't mean it's always good, does it? Is the quantum energy in physics always benevolent? If it is, this tells you there's something in the creator energy that is quantum and that knows who you are! There is an intelligence involved in the innate energy of physics that is biased for life. Think about that. So in those prophecies, do you think for a moment that all creation on Earth is going to come to a crashing halt?

Part 1.
