"Chemtrail Pilot Line"

<http://www.coasttocoastam.com/show/2004/03/26>

Friday March 26, 2004

George set up a special open line for pilots to disclose what they knew about the alleged chemtrail spraying over A-merica. One m-litary pilot, who said he flies out of Edwards AFB, told of seeing a substance loaded into planes, which he described as clear and gelatin-like, that is then dropped between 10,000 and 30,000 ft. in the air. Its purpose, he said, is to create a kind of film that blocks radar from penetrating the area for a certain amount of time before it dissipates. Another caller, who said he was an airline pilot instructor, referenced William Thomas' website, willthomas.net, and said chemtrails were colloidal substances containing human b-ood derivatives, being dropped in an effort to sicken the population. ...

"Seeing S-irits"

<http://www.coasttocoastam.com/show/2004/03/10>

Wednesday March 10, 2004

"I think I'm like a walking antenna," said parapsychological investigator, Michael J. Kouri (icghosts.com) who shared his history of seeing p-yhic emanations, dating back to his childhood. Kouri theorized that the s-ul is a type of electromagnetic energy, and m-diums such as he, have the ability to tune or draw in the energy, and in his case, process it into a form. In fact, he said he sees spi-its as solid forms rather than transparent.

Kouri said he has participated in or conducted many sances (which he calls "communication circles"), one of them being an attempt to contact Marilyn Monroe. He said he was surprised to see her come through after all this time, but her message was "please let me go." Kouri speculated that her large fan base may somehow keep her spir-t bound to the Earthly plane. Having investigated numerous haunted locations, Kouri noted one occasion when he was genuinely scared. It was while staying in a haunted room at the Hotel del Coronado in San Diego, wh ...

"UFOs & the Bi-le"

<http://www.coasttocoastam.com/show/2004/01/28>

Wednesday January 28, 2004

The whole UFO area makes no sense "unless you put it into a bi-lical context," said author Dr. Chuck Missler (khouse.org), Wednesday's main guest.

His studies have led him to conclude that UFOs are "hyperdimensional" in origin and that the aliens are actually "fallen a-gels" that have the ability

to materialize in deceiving forms. "You and I are being propelled into a time that the Bib-e says more about than any time in history," Missler continued.

He said that reports of alien abduction and their genetic experimentations were part of a larger plan of deception by e-il forces that seek to "contaminate the human r-ce and thwart the plan of G-d." It will come down to a "cosmic w-r" and Missler contends we will all be pawns in it. In the "final battle," he said the world at large will knowingly take up arms against Go-, because they will be deceived by the coming world leader. Missler said at this point "it's a waste of time" to guess who that leader is, though he believes he is alive ...

"Solomon Island Giants"

<http://www.coasttocoastam.com/show/2004/01/14>

Wednesday January 14, 2004

Author Steve Quayle (stevequayle.com) related information about giants and UFO bases, both of which he said are currently present on or off the Solomon Islands in the Pacific. One group of these giants, which are reported to be 10-12 ft. tall, are similar to Sasquatch and have a detectable odor about them he reported. Quayle cited the work of Marius Boirayon who has catalogued his findings on his website The Giants of Solomon Islands. Boirayon writes of his extensive interviews with Island residents who claim to have repeatedly seen and interacted with these beings. He also presents a map and information about hidden UFO bases in the area. The UFO Bases are underwater, Quayle said, and have subterranean entrances. The inhabitants of the craft are called "dragon snakes" by the locals, and Quayle surmised they may be reptilian in appearance. He also suggested that these UFO occupants are using the giants as test subjects for DNA and breeding experiments. ...

"Mushrooms & Christmas"

<http://www.coasttocoastam.com/show/2003/12/11>

Thursday December 11, 2003

"The mushroom is Jesus, and Santa Claus is also a mushroom," said lecturer James Arthur (jamesarthur.net), who was the main guest on Thursday. He was referring to "magic" mushrooms such as the red Amanita, which are known to expand human consciousness into mystical or spiritual states.

Arthur

contends that the authors of the New Testament, as well as other ancient religious texts, were actually conveying secret knowledge brought on by the mushrooms, such as "the death and rebirth experience," using anthropomorphized characters.

He cited the book The Sacred Mushroom and the Cross by John Allegro, as an example of a scholarly exploration of this theory, which he said had been suppressed by the Catholic Church. Through a set of imagery posted on our site (see below), Arthur demonstrated a connection between mushrooms and Christmas, drawing an analogy of the presents under the tree, to mushrooms which grow under a tree. "The mushroom is the secret X-mas present," he said with glee. ...

"Dead Scientists"

<http://www.coasttocoastam.com/show/2003/11/27>

Thursday November 27, 2003

This is "the greatest murder mystery in history," said author and terrorism expert Steve Quayle (stevequayle.com), Thursday's guest for the full 4-hour broadcast. He was discussing the mysterious series of deaths of around 30 prominent microbiologists which began in 2001. ...

"Cydonia & Ancient Earth"

<http://www.coasttocoastam.com/show/2003/10/16>

Thursday October 16, 2003

Thursday's main guests, authors Steve Quayle (website) and David Flynn (watcher website) discussed the correlation of artifacts at the Cydonia section of Mars to terrestrial geometry of megalithic structures and ancient belief systems. Flynn noted that the D & M pyramid on Cydonia, with its pentagram shape is symbolically tied to the P-ntagon in the US, reflecting the connection between Mars and war. Quayle delved into the ancient relationship between the two planets, citing the term "theurgy" as referring to mankind being given knowledge by beings from above. But he views these superior intellect entities as "fallen angels," who came to Earth to harvest our stock. "Mars is actually the seed of the knowledge of evil," he said, suggesting that the Red Planet may have once been inhabited by giants with 30 times the strength of man, who could more readily move the large objects that compose the Cydonia structures.

"Terror Alert"

<http://www.coasttocoastam.com/show/2003/09/09>

Tuesday September 9, 2003

Bioterrorism expert Steve Quayle (stevequayle.com) and surveillance specialist Douglas Hagmann (hagmannpi.com) joined the program on Tuesday to present their analysis of what they believe to be a heightened state of terror alert. "We're sensing a build-up," Quayle said, who sees "everything from a cyber attack, to an interruption in the power grid, to a concerted financial attack," as likely to happen within the next 30 days. Hagmann concurred, saying that the threat "appears to be building to a crescendo." The possibilities for suicide bombings, and biological and

chemical attacks happening within the US in the next year, are around 80%, he said. Even more alarming, Hagmann suggested the likelihood for a "dirty bo-b" to be exploded here was 70-80% in the same time frame. Quayle believes should such attacks occur, the US will go after Pakistan, Iran and North Korea, countries he said were known for sponsoring such terrorism. And Am-rica's retaliatory wrath could involve the use ...

"Visions and Warnings"

<http://www.coasttocoastam.com/show/2003/08/14>

Thursday August 14, 2003

Author Kathleen Keating (website), the main guest on Thursday night, said a group of visionaries she has contact with, have indicated we are entering into a new time of tribulation. Keating believes such things as severe weather and earthquakes are Go-'s way of "letting us destroy ourselves," as retribution for misdeeds. And yet, she said that such a catastrophic event as a nucle-r explosion in Chicago could be "sp-ritual" because "it would bring us back to -od." "The veil is thinning between our world and eternity," Keating said, and this was leading to an increase in strange dreams and visions. People have reported hearing voices coming from their air conditioners she noted.

Interestingly, she revealed that her ranch, where she raises horses, is somewhat of a portal to h-ll. Her daughter was picked up and thrown by a force in the barn and a colt's head seemed to changed shape. Keating believes the land near her ranch, which has been found to have numerous dinosaur relics, has r ...
