As AnReal ShaLaeLa O'LonRa, names given to me by the Ashtar Command directly in a Vision! I come from the Angelic Realms in the Ashtar Command!!! I also have origins not in this galaxy but as a Hybrid-Zeta, pictures which I will eventually link to these pages! Working in the 7th Fleet, I have been on a couple of ships: The WaveStar & now the Explorer, RainbowLight~~I was recently commissioned to join 11 other Commanders in the Ashtar Command (some of whom are known to us here, to be sent out in a Fleet by Ashtar, to search out NEW Universes & planets!!!

The 7th Fleet itself, is a group of many mixed types of aliens from many galaxies who wish to support & work for Ashtar!!! One of my dearest friends is a Reptilean & he is forever a source of JOY to me!!! Maybe some of you have seen that movie, "Enemy Mine"~~~a must see if you want to understand how we can really get along with other r-ces & species!!!

My name on my ship is Commander Starene
Center-Hybrid~Zeta~Me!

Who is Affiliated with the Command?

The Ashtar Command is composed of personnel in their millions, representing many dimensions, civilizations and points of cosmic origin.

At this time, We have Earth based Earth born representatives -

Commanders, walk-ins and embodied Rays of some of the High

Command Who function usually from OverSoul levels. We can thus

manifest upon Earth and still fulfill Our duties within the fleets. We are

all here to assist with the vibrational acceleratoin of this planet and its

establishment in the Seventh Golden A-e. In each instance, We are

known by Our joyous good-will, serenity and radiant LOVE for all life!

Adonai, Ashtar c-anneled by

Ashtar-Athena

WE CAN TAKE ANY TYPE OF BEAUTIFUL FORM TO CONTACT YOU!

We are not limited by time, space, distance or size! Thus We can manifest as

a tiny glowing spark, a shimmering bubble, a form as large as a skyscraper,

or as a city-sized mothership! Our starships are called Merkabah, counter

rotating wheel-like fields of LIGHT! Light Body vehicles of great beauty,

molded of Our harmonized collective essence, to lovingly serve our

missions and unified intention. In a true sense, WE manifest AS Our ships

of Light and are not really separate from them, yet they contain

environments as real to US at our level as your environment is to you at

yours!

Excerpt from the book, "Vanguard Of The New Era"

"You who constitute the Vanguard of new momentums upon Earth are a group force which emerges from out of the mass of consensus beliefs and opinions. You constitute those who have arrived at a place of more expansive vision and inclusiveness. Goodwill and the common weal has touched your heart and you strive to improve the common lot in some manner. Your spir-t glows with altruism and your countenance shines with friendliness and generosity. You are the eternal optimists, the purveyors of faith and hope, the extenders of boundless charity. Every age has made mention of those of you who, seeming 'born out of time,' express a consciousness which manifests as an era of renaissance, and which is characterized by change, rebirth and r-velation. You labor to improve the human condition through injecting new thought and new energetic infusions into the prevailing social structures. Today differs from the past, in that there is such a large number of awakened Lightworkers that you have moved from being a subculture to having an increasingly potent voice in world affairs. You have progressed from the outer 'fringes' of society into the mainstream, for you come from the mainstream. You arise with shining eyes from every race, creed and country, every a-e and gender.

Your voice is that of the awakening conscience, promptings of the collective S-ul of humanity. Your writings, voice, vision and ideas have been responsible for sparking a growing public awareness in assuming responsibility for taking care of planet Earth, its life forms and each other in more loving and effective ways. You are the systems busters of outmoded approach, the evangel of outrageous individuality even as you embrace the ideal of universal unity. In truth you are rapidly becoming the most powerful force on the planet...for your power comes from the power of your awakened Div-nity and your love."
